

5. Conditions laid down by SOLAS as part of the grant approval process for Specialist Training

The “Agreement to Collaborate”, as referenced in response to Question 1, governs the overall terms and conditions for funding of Specialist Training.

The “Schedule of Agreement”, Appendix 1 of the Agreement to Collaborate, specifies the conditions attached to funding of each individual STP centre in terms of the number of training places allocated, agreed training activity and required training outcomes.

The business planning process, detailed in response to Question 1, supports the achievement of agreed annual business objectives by STPs for the funding granted. Progress on implementation of these objectives is reviewed through quarterly business plan reviews.
