To: Denis Naughten T.D., Minister for Communications, Climate Action and Environment

We badly need a deposit refund system in Ireland to help tackle our worsening plastic waste crisis. It would work like this. A small charge (eg. 10c) would be added to the price of drinks in cans, glass & plastic bottles. When the container is returned to the shop the 10c is returned to the consumer.

Returned containers are then reused or recycled. A bit like the plastic bag levy, this system is proven to be very effective, recovering up to 95% of containers. Imagine the difference that would make to our coasts, countryside, towns & cities!

Signed by 6,127 people:
