

JCH - Quarterly Meeting on 18th October 2017

No.	Question	Responsible for reply
1.	<p><u>Question 1 (Deputy Billy Kelleher)</u></p> <p>To ask the Minister for Health the if he will provide an update in tabular format for each public and voluntary hospital the number of approved consultant posts on a whole time equivalent basis (WTE) in each and the number of these approved consultant posts filled on a permanent basis; the number of approved consultant posts (WTE) in each for each public and voluntary hospital that are unfilled (including any position occupied by a locum or a consultant employed by an agency) and the speciality of each and the date on which the position became vacant; the number of consultants not on the specialist registrar; and the number of anticipated retirements to take effect over the next twelve months in each hospital and for each specialty.</p>	<p>HSE Response Human Resources (Rosarii Mannion)</p>
2.	<p><u>Question 2 (Deputy Billy Kelleher)</u></p> <p>To ask the Minister for Health if he will provide in tabular form based on local health office/area and indicating those of 16 years of age and under, and those above 16 years of age, the numbers waiting for orthodontic treatment at the end of most recent month for which data is available.</p>	<p>HSE Response Primary Care (John Hennessy)</p>
3.	<p><u>Question 3 (Deputy Billy Kelleher)</u></p> <p>To ask the Minister for Health if he would provide an update in tabular format for each CHO for the number of Mental Health Whole Time Equivalents now needing to be recruited for the full implementation of A Vision for Change, taking account of demographic changes and if he would indicate for each CHO the teams and specialities where the additional staff are required.</p>	<p>HSE Response Mental Health (Anne O'Connor)</p>
4.	<p><u>Question 4 (Deputy Billy Kelleher)</u></p> <p>To ask the Minister for Health the number of Community Intervention Teams currently in operation; the catchment population for each; and the number of personnel in each; what counties or LHO's do not have a Community Intervention Team.</p>	<p>HSE Response Primary Care (John Hennessy)</p>

No.	Question	Responsible for reply
5.	<p><u>Question 5 (Senator Colm Burke)</u> The need for the Minister for health and the HSE to clarify the current position in respect of the orthopaedic services in the South Infirmary – Victoria University Hospital Cork and in particular:</p> <ul style="list-style-type: none"> (a) The total number of Orthopaedic Consultants including locum consultants who are currently employed in the hospital. (b) The type of contract that each Orthopaedic Consultant is employed under. (c) The total number of Orthopaedic Registrars and SHO's currently working in the hospital. (d) The total number of patients waiting to be seen for the first time in the Orthopaedic Clinic and the length of the waiting time. (e) If an urgent Orthopaedic List is in place what is the current waiting time to be seen for the first appointment on that list. (f) The total number of hip operations completed from the 1st September 2016 to 1st September 2017. (g) The total number of other orthopaedic operations carried out in the hospital between 1st September 2016 and 1st September 2017. 	<p>HSE Acute Hospitals (Liam Woods)</p>
6.	<p><u>Question 6 (Senator Colm Burke)</u> The need for the Minister for Health and the HSE to clarify what plans they intend putting in place to minimise and eliminate the National Treatment Purchase Fund patients being treated in other jurisdictions when there is adequate capacity to treat these patients within the State. The Minister might further clarify the total number of patients who are likely to be treated under the Treatment Purchase Fund for 2017 and the details of the targets which are being set for 2018</p>	<p>DoH Responding</p>
7.	<p><u>Question 7 (Senator Colm Burke)</u> The need for the Minister for Health and the HSE to clarify the status of the Interdepartmental Working Group report assessing the Nursing Home Support Scheme (Fair Deal) pricing mechanism which was scheduled for presentation to the Department of Health by the 1st June 2017. In particular that the review would also take into account that the Nursing Home providers are positioned to meet the increasing high dependency care needs of persons presenting for nursing home care.</p>	<p>DOH Response SFOP</p>

No.	Question	Responsible for reply
8.	<p><u>Question 8 (Senator John Dolan)</u> Noting the over 1,200 young disabled people under the age of 65 are in nursing homes, can you confirm the amount and type of services and supports that will be available in 2018 to</p> <p>(a) ensure that there are appropriate alternative community living options so that young people are not required to go into nursing homes and</p> <p>(b) to ensure that a programme of de congregation from nursing homes commences.</p>	HSE Responding
9.	<p><u>Question 9 (Senator John Dolan)</u> Please set out, the level of engagement, over recent months, that the Department has had with Section 39 organisations delivering disability services in order to ensure that they are in a position to continue delivery of sustainable and person centred services - in line with their service contracts with the HSE - as a result of recruitment and retention issues vis a vis other organisations funded through Section 38, or directly by the HSE, and</p> <p>(a) does the Department accept that the level of funding available for remuneration is a core component in resolving this issue.</p>	DoH Responding
10.	<p><u>Question 10 (Senator John Dolan)</u> Noting that around 1,800 hours per annum represents one WTE personal assistant, can you set out how many disabled people have</p> <p>(a) one and how many have two or more personal assistants,</p> <p>(b) by how many those numbers are set to increase next year and</p> <p>(c) an outline of how those personal assistant services are supporting participation in areas such as community engagement, education, training and employment.</p>	HSE Social Care Division (Pat Healy)
11.	<p><u>Question 11 (Senator John Dolan)</u> Name</p> <p>(a) at least three services or activities which are not the responsibility of the health service, where their availability, or greater availability and uptake, would have a positive impact on the health and wellbeing of disabled people and where there would consequently be better value for the health spending involved and</p> <p>(b) set out how the Department intends to advance interdepartmental working in the year ahead to advance such positive impacts.</p>	DoH Responding

No.	Question	Responsible for reply
12.	<u>Question 12 (Deputy Louise O'Reilly)</u> What is the level of HSE or Government funding provided to the training colleges such as Royal College of Anaesthetists, Surgeons, Physicians etc every year as well as the level of HSE or Government funding provided to colleges and ITs for the training of nurses and how do they ensure that this investment delivers an adequate supply of trained nurses and doctors to all of the hospital groups across the State, particularly hospitals in peripheral regions?	HSE Responded
13.	<u>Question 13 (Deputy Louise O'Reilly)</u> To ask for clarity as to what the proper procedure is for GPs charging medical card holders for blood given that the 1970 Health Act stats that a GP may not charge the patient if the patient is eligible for free general medical services, including in the event that a patient needs bloods to be taken to either assist in the process of diagnosis or monitor a diagnosed condition. Is this still the case and what is the procedure for recovering monies if a patient is charged in the wrong?	HSE Responded
14.	<u>Question 14 (Deputy Louise O'Reilly)</u> To ask what is being done to address the difficulties and delays being experienced by parents and children accessing services at Chamber House, Tallaght, in particular accessing an occupational therapist or a speech therapist?	HSE Responded composite reply
15.	<u>Question 15 (Deputy Louise O'Reilly)</u> What is being done to decrease the delays and waiting times to access the Early Intervention Team and the School Age Team in Chamber House, Tallaght?	HSE Responded composite reply
16.	<u>Question 16 (Louise O'Reilly)</u> To ask the HSE for a comprehensive breakdown their drug approval, purchasing, and reimbursement policy?	HSE Responded

JCH - Quarterly Meeting on 18th October 2017

Question 1 (Deputy Billy Kelleher)

To ask the Minister for Health the if he will provide an update in tabular format for each public and voluntary hospital the number of approved consultant posts on a whole time equivalent basis (WTE) in each and the number of these approved consultant posts filled on a permanent basis; the number of approved consultant posts (WTE) in each for each public and voluntary hospital that are unfilled (including any position occupied by a locum or a consultant employed by an agency) and the speciality of each and the date on which the position became vacant; the number of consultants not on the specialist registrar; and the number of anticipated retirements to take effect over the next twelve months in each hospital and for each specialty.

Response:

Context for the data provided below from DIME system (Consultant Module)

The HSE's National Doctors Training & Planning (NDTP) have developed the consultant module of the Doctors Integrated Management E-System (DIME) to improve the level and quality of information available regarding consultant posts and consultants employed in the Irish Health Service. The module has been rolled-out to all clinical sites nationally who have all received training on how to match consultants employed at their sites to posts. The development of the Consultant Module has been part of a wider project which includes simplifying and streamlining the application process for consultant posts and the development of an online application process for consultant posts.

Objectives for the Consultant Module:

1. Have every consultant matched to a consultant post.
2. Be able to tell who the consultants are working in the Irish health system, where they work and what the tenure of their employment is.
3. Be able to report on both consultant posts and consultants employed to present a variety of information such as breakdowns by clinical site, hospital group, community healthcare organisation, medical discipline (including specialty and sub-specialty) etc.

Benefits:

- The Consultant Module provides with a one stop location for information on the consultant posts, consultant numbers and consultant WTE in each medical discipline.
- It will show whether posts are filled or vacant and where they are filled the tenure of the post holder.
- It will provide information on types of consultant contracts held by consultants.
- It will facilitate workforce planning as it will contain end dates for those on fixed term, specified purpose contracts and also predicted retirement dates for consultants.
- It will provide access to a range of reports which provide information on consultant posts, consultants employed and WTE.

Currently DIME has 76% of posts matched and verified. The system is reliant on every site nationally that employs consultants to match and verify the consultants employed at that site. The system was rolled out in December 2016 and this process is currently ongoing.

The full information to respond to the question is not yet available. However please find in the tables that follow the level of information that is currently available from the Doctors Integrated Management E-System (DIME).

- ***Detail in tabular format for each public and voluntary hospital the number of approved consultant posts in each and specialty of each and the number of these approved consultant posts filled on a permanent basis:***

Response:

Please see for each public and voluntary hospital the number of approved consultant posts in each, and the specialty of each attached at *Appendix – JCH Q1*.

Please note this data comes from the Doctors Integrated Management E-System (DIME) and is directly managed by HSE-NDTP.

- ***The number of approved consultant posts in each public and voluntary hospital that are unfilled (including any position occupied by a locum or a consultant employed by an agency) and the speciality of each and the date on which the position became vacant:***

Response:

The table below sets out the number of approved consultant posts and the speciality of each.

Approved consultant posts	
Approved posts filled on a permanent basis	2427
Approved posts filled on a temporary basis (see more detail below)	201
* Unknown (unmatched and unverified by clinical sites) Of these 392 posts it is not currently know how many are vacant	392
Total approved posts	3020

*This is the information currently available from Doctors Integrated Management E-System (DIME). Please note that nationally clinical sites have completed matching and verifying 76% of Consultants to approved posts.

Approved posts filled on a temporary basis (by specialty)	
Anaesthesia	17
Emergency Medicine	16
Intensive Care Medicine	1
Medicine	43
Obstetrics & Gynaecology	10
Paediatrics	13
Pathology	6
Psychiatry	50
Radiology	14
Surgery	31
Total	201

Whilst we do not routinely monitor unfilled posts, we do monitor posts filled on a temporary basis by speciality

- ***The number of consultants not on the specialist register:***

Response:

The number of consultants not on the specialist register is 123.

- ***The number of anticipated retirements to take effect over the next twelve months in each hospital and for each specialty:***

Response:

The table below sets out the number of anticipated retirements. For data protection reasons we cannot provide retirement data on a hospital basis

Medical Discipline	Retirements over the next 12 months by specialty
Anaesthesia	4
Emergency Medicine	1
Medicine	7
Obstetrics & Gynaecology	1
Paediatrics	3
Pathology	3
Psychiatry	2
Radiology	3
Surgery	4
Total retirements	28

JCH - Quarterly Meeting on 18th October 2017

Question 2 (Deputy Billy Kelleher)

To ask the Minister for Health if he will provide in tabular form based on local health office/area and indicating those of 16 years of age and under, and those above 16 years of age, the numbers waiting for orthodontic treatment at the end of most recent month for which data is available.

Response:

The table below outlines the numbers awaiting Orthodontic treatment as of June 2017.

With very few exceptions, the vast majority on the waiting list are children under the age of 16 as referral and diagnosis typically takes place at age 12-13 years approximately, even though access to treatment may take some time after that. Referrals are dealt with on the basis of the requirement for urgent or routine treatment - with access to routine treatment generally dealt with sequentially from the waiting list. It should be noted that patients may occasionally need to wait some time for clinical reasons such as completion of linked corrective surgery or maturation of jaw and tooth development before commencing orthodontic treatment.

Eligibility for Orthodontic treatment is based on assessment using the HSE Index of Treatment Need (IOTN). Grades 1, 2 and 3 do not qualify for treatment under the public Orthodontic service. Treatment is provided for Grades 4 and 5, which covers conditions as outlined below:

Grade 4 – requiring treatment for:-

- Reverse overjet > 3.5 mm with no masticatory or speech difficulties
- Anterior or posterior crossbites with > 2 mm discrepancy between the retruded contact position and intercuspal position
- Severe displacements of anterior teeth > 4 mm but only with Aesthetic Component of 8 to 10 (see photographs below)
- Extreme lateral or anterior open bites > 4 mm
- Increased and complete overbite with gingival or palatal trauma
- Posterior lingual crossbite with no functional occlusal contact in an entire buccal segment
- Reverse overjet > 1 mm but < 3.5 mm with recorded masticatory and speech difficulties

Grade 5 – requiring treatment for:-

- Increased overjet > 9 mm
- Extensive hypodontia (2 or more teeth missing in any quadrant excluding third molars) requiring pre-restorative orthodontics. Amelogenesis imperfecta and other dental anomalies which require pre-prosthetic orthodontic care. Incisors lost due to trauma assessed on a case by case basis
- Impeded eruption of teeth (apart from 3rd molars) due to crowding, displacement, the presence of supernumerary teeth, retained deciduous teeth, and any pathological cause
- Reverse overjet > 3.5 mm with reported masticatory and speech difficulties
- Defects of cleft lip and palate
- Submerged deciduous teeth – arrange removal of teeth but orthodontic treatment not necessarily provided

ORTHODONTIC WAITING LIST INITIATIVE

A waiting list initiative to deal with long waiting times for access to orthodontic treatment commenced in 2016 - and to date has enabled treatment for an additional 1,180 of the longest waiting patients.

This initiative is continuing in 2017 (at a cost of €1m per annum) and will ensure that no patient is waiting longer than three years for treatment by early 2018.

The intention is to progressively address the issue of orthodontic waiting times thereafter through a combination of local services and focused waiting list initiatives over time and as resources permit.

Orthodontics - Number Waiting to Commence Treatment following Assessment

JCH - Quarterly Meeting on 18th October 2017

Question 3 (Deputy Billy Kelleher)

To ask the Minister for Health if he would provide an update in tabular format for each CHO for the number of Mental Health Whole Time Equivalents now needing to be recruited for the full implementation of A Vision for Change, taking account of demographic changes and if he would indicate for each CHO the teams and specialities where the additional staff are required.

Response:

Summary of the Actual staff against VFC Recommendations by CHO for Community Teams

The tables below provide the current numbers of WTEs by CHO for the three specialist community teams of Child & Adolescent Mental Health, General Adult and Psychiatry of Old Age. They also include the remaining gap in the VFC recommended WTEs which have been adjusted for current populations per Census 2016.

CAMHS Teams

CAMHS	Population 0 - <18	Total Actual WTE	% VFC	Gap in WTE per VFC
CHO1	103,778	57.2	53.00%	51
CHO2	111,880	65.9	56.70%	50
CHO3	96,266	55.3	55.20%	45
CHO4	168,542	86.1	49.10%	89
CHO5	131,522	62.8	45.90%	74
CHO6	116,264	66.5	55.00%	54
CHO7	144,296	71.2	47.50%	79
CHO8	172,373	102.2	57.00%	77
CHO9	145,581	89.5	59.10%	62
National	1,190,502	656.9	53.10%	580

General Adult Teams

General Adult	Total Population	Total Actual WTE	% VFC	Gap in WTE per VFC
CHO1	394,333	173.2	95.50%	8
CHO2	453,109	201	96.40%	8
CHO3	384,998	128.3	72.40%	49
CHO4	690,575	276.9	87.20%	41
CHO5	510,333	188.8	80.40%	46
CHO6	445,590	99.7	48.70%	105
CHO7	645,293	223.5	75.30%	73
CHO8	616,229	227.9	80.40%	56
CHO9	621,405	189.6	66.30%	96
National	4,761,865	1708.8	78.00%	482

Psychiatry of old age teams

POA	> 65 years Population	Total Actual WTE	% VFC	Gap in WTE per VFC
CHO1	60,063	40.5	77.00%	12
CHO2	68,558	47.5	79.10%	13
CHO3	55,935	25.16	51.40%	24
CHO4	98,877	21.8	25.20%	65
CHO5	74,302	37.11	57.00%	28
CHO6	50,822	33	74.10%	12
CHO7	82,991	34.5	47.50%	38
CHO8	74,258	58.34	89.70%	7
CHO9	71,761	26.6	42.30%	36
National	637,567	324.51	58.10%	234

JCH - Quarterly Meeting on 18th October 2017

Question 4 (Deputy Billy Kelleher)

To ask the Minister for Health the number of Community Intervention Teams currently in operation; the catchment population for each; and the number of personnel in each; what counties or LHO's do not have a Community Intervention Team.

Response:

A Community Intervention Team (CIT) is a specialist nurse led health professional team which provides a rapid and integrated response to a patient with an acute episode of illness who requires enhanced services/acute intervention for a defined short period of time. This may be provided at home, in a residential setting or in the community as deemed appropriate, thereby avoiding acute hospital attendance/ admission or facilitating early discharge. CIT personnel have a strong liaison role with hospital and community clinicians and provide services in the patient's home, primary care centres and in both public and private nursing homes.

The purpose of a CIT service is to prevent unnecessary hospital admission or attendance, and to facilitate/enable early discharge of patients appropriate for CIT care. The CIT, through its fast-tracked provision of services enhances the overall primary care system, providing access to nursing and home care support, usually from 8am to 10pm, seven days per week.

The CIT provide a range of services including administration of home IV antibiotics (Out-patient Parenteral Anti-microbial Therapy -OPAT); acute anticoagulation care; acute wound care and dressings; enhanced nurse monitoring following fractures, falls or surgery; care of a patient with a central venous catheter; urinary related care; care of the patient with a respiratory illness/ new diagnosis of diabetes; bowel care including ostomy care; short term older person support and care and other medication management/ administration as part of patient's acute intervention package.

The first CITs were established in 2006. There has been a significant increase in the past 2 years in the number of teams in place, with thirteen full time CITs and one part time CIT involved in the programme. These are as follows: Dublin North, Dublin South, Kildare, Louth, Meath, Wicklow, Carlow/ Kilkenny, Midwest (Limerick, North Tipperary, Clare), Cork, Galway, Waterford, South Tipp, and Roscommon.

A limited CIT service commenced on a short term basis in Sligo and covers a shorter nursing day.

The map below outlines current locations of CIT in green. The part time service in Sligo is marked in yellow.

CIT Activity

Year	CIT referrals
2014	14,689
2015	19,675
2016	27,633

The Table attached provides details of the number of CITs in place and staffing assigned to the Teams at 30th June, 2015, 2016 and 2017.

Community Intervention Team Staffing

CITs per CHO Area	No. WTE at 30/06/2015	No. WTE at 30/06/2016	No. WTE at 30/06/2017
CHO 1 Sligo (limited service)	n/a	No dedicated team	No dedicated team
CHO 2 Galway Roscommon	5 4.5	7 4.5	13.5 5
CHO 3 Mid West (Limerick; Clare; North Tipp.)	17.4	23.3	18.1
CHO 4 Cork	5	8	12
CHO 5 Carlow/ Kilkenny Waterford (Dec 15) South Tipp (Dec 16)	9	15	22
CHO 6 Wicklow	4.5	4.5	4.5
CHO 7 Dublin South Kildare	12.9 1	12 2	12.9 2.5
CHO 8 Louth Meath	12.1 n/a	15.2 2.5	15.35 7
CHO 9 Dublin North	18.66	20.66	22.66
Total	90.06	114.66	135.51

JCH - Quarterly Meeting on 18th October 2017

Question 5 (Senator Colm Burke)

The need for the Minister for health and the HSE to clarify the current position in respect of the orthopaedic services in the South Infirmary – Victoria University Hospital Cork and in particular:

- (h) The total number of Orthopaedic Consultants including locum consultants who are currently employed in the hospital.
- (i) The type of contract that each Orthopaedic Consultant is employed under.
- (j) The total number of Orthopaedic Registrars and SHO's currently working in the hospital.
- (k) The total number of patients waiting to be seen for the first time in the Orthopaedic Clinic and the length of the waiting time.
- (l) If an urgent Orthopaedic List is in place what is the current waiting time to be seen for the first appointment on that list.
- (m) The total number of hip operations completed from the 1st September 2016 to 1st September 2017.
- (n) The total number of other orthopaedic operations carried out in the hospital between 1st September 2016 and 1st September 2017.

Response:

Orthopaedic services in Cork are delivered in Cork University Hospital and South Infirmary Victoria University Hospital. The elective Orthopaedic workload is delivered in South Infirmary. The eight consultant orthopaedic surgeons hold joint appointments and deliver their Trauma commitment (Fracture Clinic and Trauma Surgery) in the CUH and Elective commitment (Elective Surgery and OPD Clinics) in the SIVUH.

It should be noted that SIVUH have had rolling theatre closures since May 2017 affecting 2 sessions per week. This is due to deficits in nursing staff numbers. Efforts are ongoing to attract the required numbers of staff to re-open the theatres and it is expected that the theatres will re-open before year end 2017.

- (a) The total number of Orthopaedic Consultants including locum consultants who are currently employed in the hospital.

There are eight permanent Consultant Orthopaedic Surgeons as follows:

Consultant	Specialty	Contract location
CONSULTANT A	CONSULTANT ORTHOPAEDIC SURGEON	20 hrs CUH/19 hrs SIVUH
CONSULTANT B	CONSULTANT ORTHOPAEDIC SURGEON	20 hrs CUH/19 hrs SIVUH
CONSULTANT C	CONSULTANT ORTHOPAEDIC SURGEON	20 hrs CUH/19 hrs SIVUH
CONSULTANT D	CONSULTANT ORTHOPAEDIC SURGEON (appointed to CUH / SIVUH in line with Reconfiguration of Acute Services)	20 hrs CUH/19 hrs SIVUH
CONSULTANT E	CONSULTANT ORTHOPAEDIC SURGEON S.I. PAEDIATRICS (appointed to CUH / SIVUH in line with Reconfiguration of Acute Services)	20 hrs CUH/19 hrs SIVUH
CONSULTANT F	CONSULTANT ORTHOPAEDIC SURGEON S.I. PAEDIATRICS (appointed to CUH / SIVUH in line with Reconfiguration of Acute Services)	20 hrs CUH/19 hrs SIVUH
CONSULTANT G	Consultant Orthopaedic Surgeon (appointed to CUH / SIVUH in line with Reconfiguration of Acute Services)	17 hrs CUH/22 hrs SIVUH
CONSULTANT H	CONSULTANT ORTHOPAEDIC SURGEON (reduced to 0.5 WTE with effect from 28 th August 2017 (Parental leave)	35.25 hrs CUH (17.63 since 20/08/2017)
CONSULTANT I	Locum Consultant Orthopaedic Surgeon	19.5 hrs CUH

(b) The type of contract that each Orthopaedic Consultant is employed under.

The following provide the details of the Orthopaedic Consultant's Contract type;

Consultant	Speciality	Contract Type	Contract location
CONSULTANT A	CONSULTANT ORTHOPAEDIC SURGEON	C	20 hrs CUH/19 hrs SIVUH
CONSULTANT B	CONSULTANT ORTHOPAEDIC SURGEON	B	20 hrs CUH/19 hrs SIVUH
CONSULTANT C	CONSULTANT ORTHOPAEDIC SURGEON	B	20 hrs CUH/19 hrs SIVUH
CONSULTANT D	CONSULTANT ORTHOPAEDIC SURGEON	B	20 hrs CUH/19 hrs SIVUH
CONSULTANT E	CONSULTANT ORTHOPAEDIC SURGEON S.I. PAEDIATRICS	B	20 hrs CUH/19 hrs SIVUH
CONSULTANT F	CONSULTANT ORTHOPAEDIC SURGEON S.I. PAEDIATRICS	B	20 hrs CUH/19 hrs SIVUH
CONSULTANT G	Consultant Orthopaedic Surgeon	B	17 hrs CUH/22 hrs SIVUH
CONSULTANT H	CONSULTANT ORTHOPAEDIC SURGEON	CAT 2	35.25 hrs CUH (17.63 since 20/08/2017)
CONSULTANT I	Locum Consultant Orthopaedic Surgeon	B	19.5 hrs CUH

(c) The total number of Orthopaedic Registrars and SHO's currently working in the hospital.

SIVUH employs 1 SHO in Orthopaedics and 6 Interns in Orthopaedics; there are 4 NCHDs (Regs/ SPRs) employed by CUH and support elective work at SIVUH.

CUH employees 12 SpRs / Registrars and 3 SHOs, with 4 of the SpRs / Registrars assigned to work in the SIVUH. The numbers who attend the SIVUH may change dependant on the demands of the Service (i.e. when the SIVUH SHO is on leave, CUH will increase the support).

(d) The total number of patients waiting to be seen for the first time in the Orthopaedic Clinic and the length of the waiting time.

Total number waiting is 5,575 of which 493 have appointments.

The following are the waiting times associated with the above cohort of patients;

0 – 3 mths	3-6 mths	6-9 mths	9-12 mths	12-15 mths	15-18 mths	18-21 mths	21-24 mths	24-36 mths	36- 48 mths	48 + mths
1,301	824	792	705	592	477	238	151	456	34	5

- (e) If an urgent Orthopaedic List is in place what is the current waiting time to be seen for the first appointment on that list.

Urgent patients are prioritised and are seen according to their clinical priority at the earliest available opportunity. As a result some patients are seen immediately. The profile of the waiting list at (d) above shows that 76% of patients are waiting less than 15 months for an appointment. There is a particular focus on those patients waiting longest and specific arrangements are being put in place to ensure that these patients are reviewed and prioritised.

- (f) The total number of hip operations completed from the 1st September 2016 to 1st September 2017.

433 primary procedures of hips have been completed.

- (g) The total number of other orthopaedic operations carried out in the hospital between 1st September 2016 and 1st September 2017.

1,975 total procedures (including hips).

Question 6 (Senator Colm Burke)

The need for the Minister for Health and the HSE to clarify what plans they intend putting in place to minimise and eliminate the National Treatment Purchase Fund patients being treated in other jurisdictions when there is adequate capacity to treat these patients within the State. The Minister might further clarify the total number of patients who are likely to be treated under the Treatment Purchase Fund for 2017 and the details of the targets which are being set for 2018

Response:

The National Treatment Purchasing Fund (NTPF) has not outsourced treatment outside the State under the 2017 Initiative. While the HSE is in the process of outsourcing internationally some scoliosis treatments, this is due to the highly specialist nature of this type of work and due to the current lack of adequate capacity in Ireland. However, under the Budget and 2018 Service Plan, additional funding will be allocated to scoliosis to increase capacity.

The recent Budget announced a total 2018 allocation of €55m for the National Treatment Purchasing Fund (NTPF) for 2018, and more than doubles their 2017 total allocation which was €20m. The NTPF estimate that this funding will enable the provision of treatment for about 18,000 Inpatient/Daycase patients across a range of specialties and procedures. The Department of Health will be engaging with the NTPF and the HSE, who will work together, over the coming weeks to develop a coherent Waiting List Action Plan for 2018. The targets for 2018 will be considered in this context. 2017 has seen the HSE and NTPF make inroads to the Inpatient/Daycase Waiting Lists and they are well on target to have removed 29,000 patients from our Waiting Lists by the end of October. The NTPF has advised that so far this year just over 10,000 patients have been authorised for treatment, with almost 3,800 patients accepting an offer of treatment and just over 1,700 of these patients have received their procedure.

Additional funding of €10m has also been provided to the end of 2017 to fund further NTPF initiatives and HSE insourcing initiatives in order to continue the strong focus on reducing waiting times for hospital procedures this year. These monies will fund patient treatment across a range of key specialties and procedures, such as hips, knees, cataracts, ear, nose & throat and others. In addition, this approach will enable a seamless continuation of this year's work on addressing waiting lists into next year.

Question 7 (Senator Colm Burke)

The need for the Minister for Health and the HSE to clarify the status of the Interdepartmental Working Group report assessing the Nursing Home Support Scheme (Fair Deal) pricing mechanism which was scheduled for presentation to the Department of Health by the 1st June 2017. In particular that the review would also take into account that the Nursing Home providers are positioned to meet the increasing high dependency care needs of persons presenting for nursing home care.

Response

The Nursing Homes Support Scheme (NHSS) commenced in 2009, and a review of the scheme was published in July 2015. On foot of the review a number of issues were identified for more detailed consideration, including a review of pricing mechanisms by the NTPF, with a view to:

- Ensuring value for money and economy, with the lowest possible administrative costs for clients and the State and administrative burden for providers;
- Increasing the transparency of the pricing mechanism so that existing and potential investors can make as informed decisions as possible; and
- Ensuring that there is adequate residential capacity for those residents with more complex needs.

A Steering Committee (chaired by NTPF and includes representatives from the Department of Health and Department of Public Expenditure and Reform) has been established to oversee the review of prices payable to private and voluntary nursing homes under the scheme. External consultants were engaged by the NTPF in 2016 to assist in its review of the pricing mechanism. It is a complex area and this is the first review of the pricing mechanism since the commencement of the scheme. It is important therefore that the review is given in depth attention. Work in this area is on-going and well advanced.

Question 8 (Senator John Dolan)

Noting the over 1,200 young disabled people under the age of 65 are in nursing homes, can you confirm the amount and type of services and supports that will be available in 2018 to

- (a) ensure that there are appropriate alternative community living options so that young people are not required to go into nursing homes and
- (b) to ensure that a programme of de congregation from nursing homes commences.

Response:

(a) ensure that there are appropriate alternative community living options so that young people are not required to go into nursing homes

Reply –

As referred to previously, in respect of expected service delivery for 2018, service planning processes are currently underway given Budget 2018 has only just been before the Oireachtas. Therefore it is not possible at the present time to confirm the amount and type of supports to be available in 2018 whilst noting that the current range of Social Care supports to enable people to live independent lives with support will continue to be provided for (e.g. Personal Assistance and Home Supports).

In the context of the specific concerns raised regarding people with a disability currently in Nursing Home Care that are under 65yrs of age, the following is noted.

- The HSE is very conscious of the fact that there are people with a disability that are in nursing home care provision who wish to, and should be supported to move back to their home of choice. HSE through its network of Community Healthcare Organisations is working to facilitate this within the resources available to it.
- Whilst a substantial level of this vulnerable group do fall into the above category, it is critically important to note that this intervention can also be an appropriate care option where persons concerned have clinically assessed complex medical and social care needs requiring this form of support. For example where the person has intensive nursing and medical care requirements which cannot be supported in the persons home or by their loved ones/ next of kin. Additionally some individuals could have early onset dementia or Parkinson's that requires intensive Nursing Home supports, including for under 65s for people in this category.

In summary, there will be occasions based on assessed need, where Nursing Home intervention is appropriate, regardless of age profile whilst also accepting the need to support people to move on from nursing Home Care which the HSE supports but can only achieve on the basis of the resources available to it.

(b) to ensure that a programme of de congregation from nursing homes commences.

Reply –

The policy framework that sets the direction for “decongregation” emerges from “*Time to Move on From Congregated Settings*”. It should be noted that the population of people with disabilities that are currently living in nursing homes was not captured or examined as part of the work of the Expert Group responsible for the Time to Move on From Congregated settings report. However, the final recommendation of the report acknowledged the following:

The HSE should initiate a review of large residential settings for people with disabilities which were outside the scope of the Working Group, for example, people inappropriately placed in Nursing Homes. The aim of the review should be to ensure that residents in these settings can access community-based support and inclusion, in line with the Working Group's proposals for residents of congregated settings

The report recommended a seven year timeframe for the implementation of the policy from 2012 - 2019 and the 2016 Programme for Government identifies that there should be a one- third reduction in the number of individuals residing on congregated settings by the year 2021, which reflects the continued commitment of the Government to the policy of decongregation, whilst acknowledging that the process of supporting each person to transition from a congregated setting to a community based service in a sustainable and safe way requires planning and time.

Having regard to the above important context and the questions posed, the HSE is prioritising its work and resources to respond to the above on the following basis.

Firstly, the HSE is implementing a programme of decongregation from large scale institutional care/ campuses currently provided via Section 38/39 organisations or directly by the HSE. This is on the basis of (a) an agreed quantum of major residential settings [i.e. there are 10 priority sites at present] and (b) the resources provided to the HSE for the HSE to achieve this objective.

It is important to point out that there are significant challenges that impact on the capacity of HSE and providers to achieve transitions in line with estimated activity levels. These may include:

- The availability of a secure supply of housing
- Putting in place the necessary adaptations based on assessed need and registration with HIQA as the Regulator of all 'disability residential centres'
- HSE must ultimately work within the allocation of funding provided to achieve decongregation

Notwithstanding the above, disability residential service providers have been working on a person-centred basis to support individuals to complete their transition to the community. The validated data identifies that 150 people transitioned in 2015, 74 people transitioned in 2016 and 83 individuals completed their transition by mid-August 2017, of which 65 are from the targeted sites. Overall the number of people remaining in congregated settings is now under 2,500, which takes account of transitions and all other movements.

Secondly, the HSE is reviewing the use of Nursing Care for under 65s via the following approach and in line with the context set out in the aforementioned.

- The Disability Federation of Ireland have carried out important research in this area in terms of the needs of under 65s with a disability currently being cared for in Nursing Home provision which the HSE has and will continue to support. Whilst the HSE is cognisant of the need to bring to a final conclusion this area of important research to inform service and policy planning, it is the view of the HSE that there is adequate data/ research available to us on this important issue to underscore the following critical concerns;
 - In order to facilitate the transition from Nursing Home to Housing with support for those that wish to and have capacity to live in their own home with care /support, very substantial financial resources will be required to facilitate and enable this policy objective to be realised. On the matter of evidence to support this assertion, the Social Care Division will meet with DFI and conclude the current HSE resourced study so as to provide a firm evidence base to underpin this area.
- It should be understood, that a multi-agency approach to achieving the above referred to objective not only rests with the HSE, that is, there is also a requirement to ensure that an adequate supply of housing as well as other state supports are available to ensure people are in a position to maximise their independence. The role of the PA service which is resourced by the HSE is a critical factor in this regard in addition to the referred to multi-agency response required.

Question 9:Senator John Dolan

Please set out

- (a) the level of engagement, over recent months, that the Department has had with Section 39 organisations delivering disability services in order to ensure that they are in a position to continue delivery of sustainable and person centred services - in line with their service contracts with the HSE - as a result of recruitment and retention issues vis a vis other organisations funded through Section 38, or directly by the HSE; and
- (b) does the Department accept that the level of funding available for remuneration is a core component in resolving this issue.

Reply Question 9

(a) Under Section 39 of the Health Act 2004, the HSE has in place service level agreements with voluntary providers which set out the level of service to be provided for the grant to the individual organisation. Individuals employed by these Section 39 organisations are not HSE employees, therefore neither the HSE nor the Minister has a role in determining the salaries or other terms and conditions applying to these staff.

The staff of these Section 39 organisations are not public servants and therefore were not subject to the FEMPI legislation which imposed pay reductions. It follows then that the staff of the Section 39 bodies will not be eligible for any pay restoration which is provided for under the more recent public service agreements.

It is a matter for Section 39 organisations to negotiate salaries with their staff as part of their employment relationship and within the overall funding available for the delivery of agreed services.

(b) Section 39 organisations are funded by way of a grant, which is negotiated with and provided by the HSE. This grant does not dictate what proportion is to be allocated for pay and what proportion is to be allocated to fund other aspects of the service provision. Hence, it is a matter for these organisations to negotiate salaries with their staff as part of their employment relationship and within the overall funding available for the delivery of agreed services.

Department of Health
13 October 2017

Question 10 (Senator John Dolan)

Noting that around 1,800 hours per annum represents one WTE personal assistant, can you set out how many disabled people have

- (a) one and how many have two or more personal assistants,
- (b) by how many those numbers are set to increase next year and
- (c) an outline of how those personal assistant services are supporting participation in areas such as community engagement, education, training and employment.

Response:

(a) one and how many have two or more personal assistants:

Reply:

Data relating to the assignment of PAs is collated on an aggregate basis at present; that is, HSE can provide gross figures relating to the number of PA Hours and the number of persons in receipt of PA. However, it should be noted that HSE is currently developing a national system that will facilitate better 'management information reporting' in the Disability sector and which will then resolve the question posed.

In the context of the agreed 2017 National Service Plan, HSE expects that there will be a total of 1.4m of PA hours provided for people with a disability to more than 2,000 people, representing an increase of 100,000 hours over the 2016 target of 1.3 million hours.

(b) by how many those numbers are set to increase next year

Reply:

In respect of expected service delivery for 2018, service planning processes are currently underway given Budget 2018 has only just been before the Oireachtas; therefore it is not possible to confirm at present, the number of PA hours that will be provided for, except to reaffirm that PA supports will continue to be a core aspect of service provision as funded/ provided by the HSE.

(c) an outline of how those personal assistant services are supporting participation in areas such as community engagement, education, training and employment.

Reply:

In the first instance, it is important to clarify that a key principle underpinning the provision of PA services relates to service user "self-direction" in terms of the locus of control being with the person accessing the support. Therefore, the overarching aim of the PA service is to facilitate individuals to maximise their capacity to live full and independent lives. The service aims to achieve this by way of supporting people to live in community based settings and to access facilities and services, including engagement with community based education, training and employment service providers. The HSE accepts the value in further developing the role so that there is a consistency of approach and to ensure that the principle of "self-direction" is universally understood and applied. The Social Care Disability Operations team at a national level will lead a process to achieve this in consultation with service users and service providers.

Question 11: - Senator John Dolan

Name

(a) at least three services or activities which are not the responsibility of the health service, where their availability, or greater availability and uptake, would have a positive impact on the health and wellbeing of disabled people and where there would consequently be better value for the health spending involved and

(b) set out how the Department intends to advance interdepartmental working in the year ahead to advance such positive impacts.

Reply to Question 11:

Three activities relevant to the health and well-being of people with a disability include employment support, social inclusion and housing.

Comprehensive Employment Strategy (CES) for People with Disabilities 2015-2024

The CES for People with Disabilities was launched by the Taoiseach on 2nd October 2015.

The Strategy was developed by the National Disability Authority (NDA) under the aegis of the National Disability Inclusion Strategy (NDIS) (which comes under the remit of the Department of Justice & Equality).

A group chaired by Mr Fergus Finlay has been established by the Department of Justice & Equality comprising representatives of the relevant Departments, disability stakeholders and the NDA to oversee implementation of the Strategy and monitor progress by Departments and agencies on the commitments made by Government under the 6 strategic priorities. The Group includes representation from the Department of Health and the HSE.

The group produced an Annual Report at the beginning of 2017, which included an update on progress on actions in the CES.

During 2017, the group is focusing on three key areas; the recommendations of the Make Work Pay report, transition points for people with disabilities into employment, and engaging with employers. The Department of Health and HSE are working closely with colleagues in the Department of Employment Affairs and Social Protection, in this regard.

National Disability Inclusion Strategy (NDIS) 2017 - 2021

The NDIS was launched by Minister Finian McGrath on Friday, 14th July, 2017.

This Strategy captures a wide range of actions across Government Departments that will impact on the lives of people with disabilities and is to be viewed as a blueprint for an inclusive, accessible and equal country, that incorporates issues that affect quality of life, health, education and transport.

Underpinning the Strategy, is a vision of an Irish society in which people with disabilities across the lifecycle enjoy equal rights and opportunities to participate in social and cultural life, can work if they want to do so, have choice and control over how they live their lives, and can reach their full potential.

A Steering Group is chaired by Minister McGrath, with secretariat functions provided by the Department of Justice and Equality. It comprises key government departments (e.g. Justice and Equality, Health, Employment Affairs and Social Protection, Children and Youth Affairs, Education and Skills, Housing), the National Disability Authority and the Disability Stakeholders Group. It monitors the implementation of the Strategy, based on annual work plans and meets quarterly.

The NDIS contains a commitment for each Department to establish a Disability Consultative Committee (DCC) as part of the monitoring and review process. The Department of Health has established its DCC which is representative of people with disabilities and other key stakeholders.

The Committee met in September and will meet in advance of each Steering Group meeting to outline progress that the Department of Health has made on each action. Further meetings are planned for November, 2017, February, 2018 and May 2018. This group will provide updates on a regular basis to the NDIS, at its meeting. At the recent meeting of the NDIS Steering Group, the majority of Government Departments reported that they had established a DCCt

Action 49 of the NDIS sets out increasing the public sector employment target of persons with disabilities from 3% to 6% by 2024, and will embed this target into all public service workforce planning and recruitment. The Department of Health is working to this target, in delivering it for itself, and for the wider health service, and will report periodically to the NDIS Steering Group.

Housing

The Programme for Partnership Government contains a commitment to continue to move people with disabilities out of congregated settings, to enable them to live independently and to be included in the community. The objective is to reduce this figure by one-third by 2021 and ultimately, to eliminate all congregated settings. The reconfiguration of residential services is being supported by €100 million in capital funding from the Department of Health over the period 2016-2021, while assistance with transitional costs is being provided by a Service Reform Fund.

Supported by DoH and the HSE, the Department of Housing, Planning and Local Government (DHPLG) will provide ring-fenced funding in 2017 under the Capital Allocation Scheme (CAS), specifically for the provision of housing for people with disabilities who are moving out of congregated settings into community based living arrangements.

CAS funding will also be available to provide housing for people with disabilities in the community more generally that is not specifically targeted at deinstitutionalisation. HSE Managers at CHO level engage with Approved Housing Bodies (AHBs) to provide a letter of approval confirming that they are supportive of the application and this it is in line with national guidance for housing of people with disabilities.

Department of Health

17 Oct 2017

Question 13 (Deputy Louise O'Reilly)

To ask for clarity as to what the proper procedure is for GPs charging medical card holders for blood given that the 1970 Health Act states that a GP may not charge the patient if the patient is eligible for free general medical services, including in the event that a patient needs bloods to be taken to either assist in the process of diagnosis or monitor a diagnosed condition. Is this still the case and what is the procedure for recovering monies if a patient is charged in the wrong?

Response:

Under the terms of the current GMS contract, GPs are required to provide eligible patients with *"all proper and necessary treatment of a kind usually undertaken by a general practitioner and not requiring special skill or experience of a degree or kind which general practitioners cannot reasonably be expected to possess"*. Routine blood tests, which are deemed clinically necessary by the patient's GP are comprehended by this scope of service. It is of course a matter for the treating GP to determine in the case of each individual patient what proper and necessary care is. In circumstances where a GP, in the exercise of his/her clinical judgment, determines that a particular treatment or service requested by a patient is not clinically necessary but the patient still wishes to receive same, it is at the GPs discretion as to whether he/she imposes a charge for providing the service/treatment in question. An example of this might be an asymptomatic patient about whom the GP does not have any clinical concerns requesting a general health screening. Consultation fees charged by GPs outside the terms of the GMS contracts are a matter of private contract between the clinicians and their patients. The HSE does not have any role in relation to the regulation of such fees.

The HSE PCRS issued Circular 11/2011 [21 June 2011] and 11/2014 [12 March 2014] to GPs on the subject of practice based phlebotomy services.

<https://www.hse.ie/eng/staff/PCRS/circulars/GP/GP%20Blood%20Tests%202011.pdf>

<http://www.hse.ie/eng/staff/PCRS/circulars/GP/GP%20Blood%20Tests.pdf>

As is generally known, there is an on-going review of the GMS and other publicly funded contracts involving GPs. The aim is to develop a new modern GP services contract, which will incorporate a range of standard and enhanced services to be delivered.

Question 14 (Deputy Louise O'Reilly)

To ask what is being done to address the difficulties and delays being experienced by parents and children accessing services at Chamber House, Tallaght, in particular accessing an occupational therapist or a speech therapist?

&

Question 15 (Deputy Louise O'Reilly)

What is being done to decrease the delays and waiting times to access the Early Intervention Team and the School Age Team in Chamber House, Tallaght?

Response:

In the first instance, it is important to clarify that 'Chamber House' is currently a specialist disability "service hub" in CHO area 7 from which a range of specialist services are provided; that is, including the Early Intervention Team [EIT], the School Age Team [SAT] and therefore encompassing the discipline(s) referred to in the questions above (*i.e., OT and SLT*).

It is acknowledged that there is a high demand for both early intervention and school age services in Dublin South West. Six additional disability posts (or whole time equivalents WTE) were approved in 2014 and 2015 for both services (in total). At present a total of 16.6 WTEs are working in the EIT and SAT services. In terms of OT and SLT, the EIT has two Speech and Language Therapists and two Occupational Therapists and separately the SAT also has two Speech and Language Therapists and two Occupational Therapists.

Every effort is being made to decrease waiting time(s) for access to these services within existing resources. A review of both 'cases' and of 'processes' is undertaken on a continuous basis whilst acknowledging that the volume of referrals and the needs of children referred are likely to remain high. A number of actions were taken in the past 6 weeks to improve efficiencies from an administrative and referral screening perspective and the introduction of the team manager role should also have a positive impact on team co-ordination of access to therapies, etc.

Progressing Disability Services (0 – 18 programme)

In addition the HSE is in the process of reconfiguring the delivery of Children's Disability Services into Children's Network Disability Teams (as per National Policy- 'Progressing Disability Services for Children and Young people 0 -18 years') to provide a clear pathway for access to services. The key objective of the Progressing Disability Children's Services programme is to provide equitable access to services for all children and young people according to their needs. Services will be provided by interdisciplinary teams working in partnerships with families and in collaboration with other services and sectors to support children achieve their potential.

Children with complex needs in the South Dublin Region who currently receive services from the HSE Disability Teams and Voluntary Organisations will access services from the Children's Disability Network Team based on their primary residence.

2018 Budget and HSE Service Plan

Submissions have been made by the HSE as part of the 2018 Estimates Process in respect of disability services from a Primary Care and Social Care perspective. As Budget 2018 has only recently been before the Oireachtas, it is important to clarify that HSE is in the process of developing its 2018 Service Plan. It is in this context that the quantum of services to be delivered, including in CHO area 7, in terms of supports for children and young people with disabilities will be addressed.

Question 16 (Deputy Louise O'Reilly)

To ask the HSE for a comprehensive breakdown their drug approval, purchasing, and reimbursement policy?

Response:

The Policy for dealing with applications for new drugs is set out in Legislation and as provided for in the Health (Pricing and Supply of Medical Goods) Act 2013.

The Legislation sets out the criteria to be followed by the HSE in assessing applications as follows:

1. The health needs of the public.
2. The cost-effectiveness of meeting health needs by supplying the item concerned rather than providing other health services.
3. The availability and suitability of items for supply or reimbursement.
4. The proposed costs, benefits and risks of the item or listed item relative to therapeutically similar items or listed items provided in other health service settings and the level of certainty in relation to the evidence of those costs, benefits and risks.
5. The potential or actual budget impact of the item or listed item.
6. The clinical needs for the item or listed item.
7. The appropriate level of clinical supervision required in relation to the item to ensure patient safety.
8. The efficacy (performance in trial) effectiveness (performance in real situations) and added therapeutic benefit against existing standards of treatment (how much better it treats a condition than existing therapies), and
9. The resources available to the HSE.ⁱ

The process for dealing with applications for the reimbursement of a new medicine typically involves the following stages:

- The HSE Corporate Pharmaceutical Unit receives the application from the pharmaceutical company as per Section 18(1) of the Act.
- The Corporate Pharmaceutical Unit commissions the NCPE to conduct a health technology review of the new medicine.
- The medicine is subjected to a preliminary rapid review.
- High-cost products and those with significant budget impact are subjected to formal pharmacoeconomic assessment.
- Similarly, products where concerns arise in relation to value for money are selected for formal pharmacoeconomic assessment.
- All such pharmacoeconomic assessments are carried out in compliance with published HIQA Guidelines.
- Companies submit a dossier for consideration i.e. the company gets the opportunity to put forward its best case for consideration by NCPE.

- Following assessment, a full appraisal report outlining the NCPE conclusions and recommendations is sent to the Corporate Pharmaceutical Unit.
- The appraisal report sets out detailed information on the clinical evidence for the benefits associated with or claimed for the new medicine and the robustness of that evidence.
- Information on cost-effectiveness and the probability of cost effectiveness at a range of thresholds (e.g. €20,000 per Quality Adjusted Life Year (QALY), €45,000/QALY, €100,000/QALY and occasionally at even higher thresholds is also provided.
- In the case of oncology drugs a report is also sent to the National Cancer Control Programme for consideration under the NCCP Therapeutic Review Process.
- The Corporate Pharmaceutical Unit leads on any commercial negotiation with the individual pharmaceutical company.
- The full assessment report, the outputs of any commercial negotiations and any other relevant information is then considered by the HSE Drugs Group, which is the expert body in place to make recommendations to the HSE Leadership Team on New Medicines applications.
- The HSE Leadership Team or Directorate is the final decision making body.
- The Act requires that the HSE provides a formal notice of any proposed decision to the applicant company and requires that the HSE considers any representations received from an Applicant company in advance of making a formal (final) decision on pricing and reimbursement.

The HSE has traditionally been an early adopter of new medicines where clear evidence of clinical benefits to patients can be demonstrated and value for money assured, and is committed to providing access to as many medicines and other services as possible from within the resources available.

However, the pricing strategy adopted by some pharmaceutical companies in recent years presents significant challenges, with prices demanded often running to hundreds of thousands of euro per patient per annum. On occasion, these prices can be demanded for medicines for which there may only be preliminary clinical information available to support the benefits claimed. This is leading to serious affordability problems for health services in Ireland and internationally.
