Dear Ms Cremin,

I refer to correspondence resting with my letter of the 8th November 2021.

Please note that we were advised on 21st December that the HRI Board had approved the budget required for the proposed CCTV system. The response letters issued to all tender candidates on the 29th December and the stand still period required under procurement process commenced on the 30th December. We have received a request for that to be extended which has been granted.

Please note that any challenges to the procurement process may extend the period before the contract can be awarded. Once the contract has been awarded and signed, installation of system will begin as soon as possible. We will have a better understanding of the time required to complete this process once we can commence contract discussions. We intend to give priority to the racecourses who are currently holding fixtures before moving on to racecourses whose season begins later in the year, however we will be working with the contractor and the racecourses to ensure best use of resources and management of logistics.

I will update you as we progress.

Please contact me if you require any further information.

Yours sincerely,
