**Written Submission on the General Scheme of the Online Safety  
and Media Regulation Bill (March 2021)**

Oireachtas TV welcomes the provisions in Head 40 (5)(k) which envisages thresholds below which regulated entities will be obliged to pay a nil amount or a minimal contribution.

Oireachtas TV has benefited from a somewhat similar provision in the 2009 Broadcasting Act.

The provisions which strengthen online safety are, of course, to be welcomed.

Oireachtas TV does not currently have a video on demand service, however, the provisions and proposed statutory requirements in that regard are noted.
