Note:

- Boards and management of individual public hospitals are responsible for the accuracy and the integrity of patient data submitted to NTPF.
- Work on reporting of this data will inevitably evolve and technical and administrative issues will be addressed as they present.
- Excludes GI Endoscopy.
- No Inpatient Waiting List extract file data is received for the three Dublin Maternity Hospitals, The National Maternity Hospital Holles Street, the Coombe Women & Infant University Hospital and Rotunda Maternity Hospital
- The Children's Health Act 2018 came into effect on 1st January 2019. Under this act, Children's Health Ireland was established and all assets, liabilities and records were transferred from Our Lady's Children's Hospital Crumlin, Temple Street Children's University Hospital and National Childrens Hospital at Tallaght University Hospital to the new body. From 1st January 2019, all NTPF reports will reflect this change and data from the three sites of Children's Health Ireland will be reported as one entity. On the 31st of July 2019 Children's Health Ireland opened a new Paediatric Outpatient Department and Urgent Care Centre at CHI Connolly in Blanchardstown. The waiting lists for this site will be incorporated into the Children's Health Ireland figures.
- In the Irish health system, patients are generally referred for children's hospital services up to the eve of their 16th birthday, however, there are exceptions. The above tables classify children / adults as follows:
 - Child only hospitals – all patients are classed as children, regardless of age. (There are 361 patients aged 16 or over waiting for inpatient / daycase services in a child only hospital who are classified as children in the above tables.)
 - Adult only hospitals – all patients are classed as adults, regardless of age. (There are 17 patients under the age of 16 waiting for inpatient / daycase services in an adult only hospital who are classified as adults in the above tables.)
 - Adult and Child Hospitals – patients under the age of 16 are classed as children, all other patients are classed as adults.
- Where there are < 5 patients waiting in a particular hospital, we have aggregated the numbers under a 'Small Volume' heading.
