*Tairiscint (atógáil) (1 ur. 30 n fágtha):
Motion (resumed) (1 hr. 30 m remaining):*

48. “That Dáil Éireann, concerned that Ireland’s natural wealth should fully benefit the citizens of this State, notes (in this State):

- that oil and gas (hydrocarbon) taxation is seriously flawed and outdated;
- that our hydrocarbon legislation covered by the Finance Act 1992 which allows for a 25% corporate tax is the lowest in the world;

- that no royalties or other production related levies are demanded, with 100% write-off's for the oil companies activities that can effectively wipe out any tax-take to the State;
- that we continue to issue Frontier licenses to the oil companies for not less than 15 years;
- that there is no onus on the oil companies to use an Irish service port for their operations or to use Irish jobs, goods or services;
- the subservient attitude of the Minister for Communications, Marine and Natural Resources and his Department — PAD (Petroleum Affairs Division) to the multinational oil companies;
- the meaningless public consultation process (Strategic Environmental Assessment) announced by the Department of Communications, Marine and Natural Resources under EU Directive 2001/42/EC (April 11th, 2006) (S.I. No. 435/2004 and S.I. No. 436/2004) with rushed timescale (May 25th, 2006) required prior to the next allocation of licences for off-shore oil and gas exploration, and designed to exclude the public rather than include them;

and now calls for:

- recognition of the fundamental principle that oil and gas reserves within the control of the State belong to the Irish people and must be recovered and used in a way that benefits the great majority of the population rather than powerful corporate interests;
- the immediate scrapping of the ‘giveaway’ 1992 legislation with the re-introduction of a realistic tax-take, with royalties, and an automatic ‘stake’ of 50% in any oil/gas discovery;
- the establishment of an independent oil/gas inspectorate to closely monitor all multinational oil company operations to ensure that this State fully benefits from all oil/gas exploration activities;
- a complete freeze on the issuing of any further exploration licences pending proper consultation with the Irish people (and until all relevant environmental data is gathered and assessed);
- proper and comprehensive assessments, including meaningful consultation with and representation of communities affected by oil and gas development;
- no more Frontier licences to be issued — do it a better way;
- an independent official on behalf of the people of Ireland be installed on all multinational oil rigs to monitor oil and gas operations in Irish waters; and
- the establishment of a publicly owned Gas and Oil Exploration and Recovery Agency to investigate the exploration and recovery of hydrocarbon resources without being dependent on multinational oil and gas conglomerates;

Nothing in this motion contradicts the reality of global warming and the finite nature of hydrocarbon resources making it imperative that the State invests massively in alternative sources of energy which do not damage the environment and are sustainable and available in Ireland.” — *Jerry Cowley, Joe Higgins, Tony Gregory, James Breen, Catherine Murphy, Paudge Connolly, Marian Harkin, Seamus Healy, Finian McGrath, Paddy McHugh.*

P.T.O.

Leasú (atógáil):

Amendment (resumed):

1. To delete all words after “Dáil Éireann” and substitute the following:

“recognises:

- that the development of Ireland’s natural resources benefits the citizens of the State;
- that the present fiscal terms for petroleum are based on the present perception of prospectivity in Offshore Ireland and recognises that we compete with other jurisdictions for exploration investment;
- that the State is in receipt of royalties in relation to its major production facility at Kinsale;
- that the completion of a comprehensive (and expensive) work programme is a requirement of frontier licences and failure to complete such a programme will result in either relinquishment or revocation of the licence;
- that in practice Irish ports are widely used by petroleum companies but an obligation for the compulsory use of Irish ports would be anti-competitive and contrary to EU law;
- the need for the State, as part of its energy policy, to increase the share of petroleum to be provided from indigenous resources in Offshore Ireland; and
- the implementation by the State of its requirements under the Strategic Environmental Assessment Directive (2001/42/EC);

notes:

- that work is already underway by the Minister for Communications, Marine and Natural Resources on a review of the State’s present fiscal terms to ensure that the State receives its appropriate share;
- that the Department of Communications, Marine and Natural Resources is engaged in the monitoring of petroleum exploration and production operations to ensure that the State is fully informed and fully benefits from these activities;
- that proper and comprehensive consultation is carried out in relation to petroleum activities; and
- the continuing enhancement of policy in relation to renewable and alternative energy;

rejects:

- a freeze on the issue of any further exploration licences including Frontier Exploration Licences which would not be in the national interest;
 - the need for the establishment of any new agency or inspectorate in light of the structures currently in place and being put in place; and
 - the need for any change in existing Government policy in relation to petroleum activities other than the review of fiscal terms currently underway and any changes which might be necessary following the publication of the Advantica and other reports.” — *An tAire Cumarsáide, Mara agus Acmhainní Nádúrtha.*
