concerned at:

- the failure of the Government to publish Professor O’Neill’s report into deaths at Leas Cross nursing home;
- the failure of the Government to fulfil promises made in this House by the Taoiseach and the Minister for Health and Children to introduce legislation to provide for an independent statutorily-based inspection regime for all nursing homes; and
- the lack of information and transparency about standards applying to nursing homes;

calls on the Government to:

- immediately publish Professor O’Neill’s report;
- bring forward the promised legislation as a matter of urgency; and
- make all inspection reports directly available to residents of nursing homes and their families and accessible to the public, free of charge.” — *Liam Twomey, Fergus O’Dowd, Enda Kenny, Liz McManus, Seán Ryan, Pat Rabbitte, Richard Bruton, Bernard Allen, Pat Breen, Paul Connaughton, Simon Coveney, Seymour Crawford, John Deasy, Jimmy Deenihan, Bernard J. 53. “That Dáil Éireann in accordance with section 7 (2) of the Comptroller and Auditor General Act 1923 as amended by section 21 of the Comptroller and Auditor General and Committees of the Houses of the Oireachtas (Special Provisions) Act 1998, requests the Comptroller and Auditor General to conduct an examination of the administration, by the Minister for Justice, Equality and Law Reform, of the purchase of 150 acres of land for the purpose of a prison and mental hospital at Thornton, Kilsallaghan, County Dublin for €29.9 million; and

requests the Comptroller and Auditor General to prepare a report in writing of the results of that examination and if he considers it appropriate to do so, prepare an interim report in writing on any matter in relation to it, and cause any report to be furnished to the Clerk of Dáil Éireann and, if he considers it appropriate to do so, cause a copy of any such report to be furnished to the Clerk of the Committee of Public Accounts of Dáil Éireann.” — *Joe Higgins, Jerry Cowley, Tony Gregory, Finian McGrath, Catherine Murphy, Paddy McHugh.*

54. “That Dáil Éireann notes the continuing incompetence of the Government over the 12-week summer recess in the following areas:

- the scandal of the imprisonment of five citizens from Rosspoint, County Mayo for the crime of protecting their families and community;
- the failure of the Minister for Health and Children’s 10-point plan to deliver the promised relief of overcrowding in Accident and Emergency by autumn this year;
- the continuing absence of real choice for parents in the area of childcare;
- the completely inadequate response to the Morris Tribunal report in which even in the minimal decision to transfer the Gardaí criticised in the report has not been acted upon;
- children returning this September to schools that have the second highest class size in Europe;

- the cutback by FÁS of 25% in all basic reading and maths classes despite the fact that the Annual Competitiveness Report identified a lack of participation in adult education;
- Ireland now has the third highest level of poverty of 18 industrialised countries despite being the second richest country in the world;
- the Government's extraordinary request to reallocate €5m of funding away from sustainable energy projects at a time when the world is facing the highest ever price for oil;
- the rip-off of overspending on massive road projects, which are then tolled to the benefit of private companies, while public transport systems, especially the railways are run down;
- Ireland will have to pay €74m this year for our excessive output of carbon;
- the persistent problem of illegal dumping especially in the Wicklow area from which Dublin gets much of its water;
- the rise in fly-tipping and back-yard burning outlined in a recent EPA report;
- the failure to transpose yet another EU Directive into Irish law, this time on recycling targets, which was supposed to be implemented by August;
- the increasing unemployment figures, inflation and exchequer deficit;
- the continuing problem of anti-social behaviour;
- the facilitation of, not only the US-led occupation of Iraq, but the illegal transportation of prisoners, by providing the US military with unquestioned access to Shannon Airport, resulting in this country being investigated by the United Nations;
- the withholding of rent allowance from single parents unless they take absent parents to the courts for financial assistance;
- the decision by the European Commission that the Government's stallion tax is an illegal state aid to the bloodstock industry;
- the serious question marks raised over the selection of the site for a new prison in north County Dublin; and
- the policy of centralising sewage treatment in regional locations resulting in massive plants being imposed on local communities;

calls on the Government to:

- stop backing Shell on the Corrib Gas pipeline dispute and put the safety of our citizens first by having a full oral hearing on the pipeline;
- invest in more hospital beds as well as nursing and convalescent homes, the lack of which have been clearly identified as the major cause of overcrowding in Accident and Emergency units;
- increase parental leave and provide options for parents whether they choose to avail of childcare or not;
- seek the immediate transfer of the Gardaí criticised in the Morris report;

- invest in reducing primary school class sizes below 20 as international studies emphasise again and again the importance of a quality primary education in long-term development and the country's economic competitiveness;
- reverse the cutbacks in adult education for Community Employment Schemes;
- develop a strategy to target local rural and urban areas which the ESRI says are locked into deprivation;
- prioritise renewable energy projects such as wind, wave, solar power and biomass and to promote their use, in particular by providing grants for household conversions;
- reverse the current 4:1 ratio of spending on roads and public transport and invest in an integrated public transport system in major cities, such as the Dublin Metro, along with the upgrading of strategic links across rural areas;
- reconsider its decision not to introduce a carbon tax and to include it in the budget for 2006, balanced by reductions in labour taxes, VAT and the introduction of targeted fuel allowances;
- set up an agency to spearhead the drive for recycling in order to improve our very poor performance to date - the second worst of 15 states in a recent European survey;
- implement the European Court decision that serious damage to the environment should be categorised as a criminal offence;
- tackle our litter problem by increasing resources for litter wardens, increasing penalties for litter and dumping, and introducing a refundable deposit on all types of retail beverage containers, which would cut litter overnight;
- promote enterprise and employment to exploit the emerging opportunities in biofuels, organic food and eco-tourism, all areas in which Ireland is well positioned to excel;
- forget anti-social behaviour orders and instead implement all the provisions of the Children's Act 2001, properly resource the Juvenile Liaison Officers and provide more community Gardaí and mountain bike units;
- withdraw the use of Shannon Airport from forces involved in the war in Iraq and to introduce proper controls and inspection of suspect aircraft using the airport to ensure that this country is not facilitating any illegal activities;
- restore rent allowance to all single parents;
- abolish unnecessary tax reliefs, especially in the building industry, before the European Commission finds against the Government again;
- investigate the process by which the Thornton site in north County Dublin was selected for a new prison before contracts are signed tying the tax payer into expenditure of €30m; and
- reject the establishment of regional sewage treatment plants in favour of area-specific facilities." — *Trevor Sargent, John Gormley, Dan Boyle, Ciarán Cuffe, Paul Gogarty, Eamon Ryan.*

56. “That Dáil Éireann,

- denounces the exploitation of workers on board ferries operating under flags of convenience out of Irish and EU ports;
- notes that a draft Directive on passenger and ferry services was proposed by the European Commission in April 1998 (COM/98/0251), approved by the European Parliament in March 1999 and that a revised proposal was issued in 2000 (COM/2000/0437), but withdrawn in August 2004 following the failure to reach a final agreement at the Council of Ministers; and
- calls on the European Commission to urgently introduce a European Ferries Directive, to combat ‘social dumping’ on ferries and set minimum labour standards in order to ensure an end to the exploitation of workers on intra-EU passenger and ferry services.” — *Arthur Morgan, Caoimhghín Ó Caoláin, Seán Crowe, Martin Ferris, Aengus Ó Snodaigh.*

57. “That Dáil Éireann,

recognising that:

- there is consistent neglect by the Government of the Ballina and north Mayo region;
- the upgrade of the Ballina sewage scheme is vital to the future development of this county town and general area;
- despite the Celtic tiger Ballina remains a notorious employment ‘black-spot’ area;
- investment in infrastructure is needed in the western area of the country;
- there has been a gross under-spend in the BMW region as outlined in the mid-term review of the NDP; and
- there is a lack of rail freight services from the Mayo area, discontinued earlier this year but as yet there has been no replacement despite much hype over the replacement.

calls on the Government to:

- ensure the upgrade of the Ballina sewage scheme;
- ensure the necessary infrastructure investment takes place in Ballina and Mayo by addressing the underspend;
- establish a tax incentive area in Ballina and surrounding areas;
- ensure the IDA fulfil their promise of establishing adequate employment in Ballina;

- take special steps to re-activate this once thriving town; and
- maintain balanced regional development.” — *Jerry Cowley*.

58. “That Dáil Éireann,

- concerned at the ‘race to the bottom’ in terms of employment rights and industrial relations standards in certain sectors of the economy;
- recognising the obligations of the public sector as both employer and recipient of services provided by contractors who are employers;
- recognising in particular that the general standards required of a contractor in providing services to or on behalf of a public body, including a Government Department, have governance implications for that public body, that non-performance by a contractor, or performance by a contractor at less than acceptable delivery or behaviour standards, or both, has particular implications for the public body concerned and that, for its own protection, a public body must have the means both to take action in such circumstances and to be seen to be capable of taking such action when required;
- believing that, in the interests of good governance, when hiring a contractor a public body should therefore include certain provisions in its contracts;

calls on the Government to ensure that Ministers and public bodies acting under their aegis adhere to the following policies in relation to the hiring of contractors for the provision of services to or on their behalf:

- (1) A public body should explicitly reserve the means to terminate a contractor’s contract on grounds of either non-performance or of less than acceptable standards of performance or behaviour by the contractor. A public body should make explicit the level of performance and behaviour required of a contractor and the contractor’s management and staff in the provision of services under each particular contract.
- (2) Each contractor should be obliged to make an annual ‘Governance Assurance Report’ to the public body concerned, signed by the Chief Executive of the contracting company and dealing, at the least, with the following matters:
 - adherence to the full and complete terms of the contract;
 - certification of compliance by the contractor with all relevant legislation including in particular health and safety legislation, fire authority regulations, environmental protection, fiscal obligations and employment law obligations, together with full disclosure of any complaints received or investigations carried out during the year and details of any remedial action taken;
 - the appropriate insurance cover carried by the contractor; and
 - the contractor’s certification in relation to the application of good standards in human resource management practice.
- (3) A public body should provide an annual report:
 - in the case of a Minister, to the Dáil;

- in any other case, to the board of the body concerned and to the relevant Minister; and
- in every case, to its employee trade unions;

on compliance by its contractors with the requirements of paragraph 2.

- (4) A public body is not confined to the reporting requirements measures set out above and may extend the content of governance assurance reporting measures, as required.
- (5) In appropriate cases, a public body should have an additional term in its contracts with contractors, providing for a random ‘spot check’ obligation. In such a case, a contractor would be obliged to facilitate and co-operate with the public body if it wishes to check on the accuracy of any or all of the governance assurance reporting measures. A public body should consider appointing a competent independent party to carry out and report back on such spot checks.
- (6) While it is not appropriate that a public body be expected or requested to police the employee relationships of its contractors, it is nonetheless responsible that a public body explicitly provide in its contracts that:
- the contractor will abide by the code of practice scheduled to the Industrial Relations Act 1990 (Code of Practice on Grievance and Disciplinary Procedures) (Declaration) Order 2000 (SI 146 of 2000) in regard to grievance and disciplinary procedures;
 - the employees of the contractor will have the same right of access to the Labour Relations Commission conciliation service, the Labour Court and the Rights Commissioners service, as appropriate, as do the body’s own employees; and
 - the contractor will commit to giving the determinations and/or recommendations of these bodies their due regard under Irish law and in accordance with best industrial relations practice.” — *Brendan Howlin, Pat Rabbitte, Liz McManus, Emmet Stagg, Thomas P. Broughan, Joan Burton, Joe Costello, Eamon Gilmore, Michael D. Higgins, Kathleen Lynch, Breeda Moynihan-Cronin, Brian O’Shea, Jan O’Sullivan, Seamus Pattison, Willie Penrose, Ruairi Quinn, Seán Ryan, Joe Sherlock, Róisín Shortall, Mary Upton, Jack Wall.*

59. “That Dáil Éireann, recognising that Ireland West Airport Knock;

- is essential for the proper development of the BMW region;
- has never been allowed to achieve its full potential due to under funding by the Government and has the potential to service 13 counties very easily;
- is capable of expansion if allowed to by the Government and that Dublin is already grossly over populated considering that the recent CSO report expressed alarm at the over development of the Dublin Area; and
- is constantly increasing its passenger numbers and its airline and tour operators;

calls on Government to:

- invest the necessary €15million required for 2005 – 2007 to meet infrastructure needs;

- acknowledge the vast potential of this airport with the third longest runway in Ireland;
- immediately invest the €billion under-spend in the objective 1 status BMW area, thus recognising the central role of this airport will play in overall BMW development;
- develop a realistic financial investment package for Ireland West Airport Knock, taking into consideration that in 2004 this airport supported 500,000 bed nights and a €37million tourism spend; and
- award a CAT11 navigational status to the region, which is currently not available so that the BMW region can reverse its enormous deficiency in direct air access, given that Ireland West Airport Knock presents the most viable and realistic opportunity in achieving this.” — *Jerry Cowley*.

[13 December, 2005]

61. “That Dáil Éireann notes the following important matters that have arisen during the five week Christmas recess:

- record breaking queues at Accident and Emergency departments belying the claims of the Health Services Executive that the situation is improving;
- new reports of exploitation of workers and a drop in trade union membership leading to grave concerns for the rights of workers, whether Irish or foreign;
- the threat to gas supplies that arose from the dispute between Russia and the Ukraine;
- a renewed campaign of misinformation arguing that nuclear power provides a solution to global warming which, if heeded, will only ensure that this generation compounds the crime of squandering the Earth’s oil resources by also leaving a legacy of nuclear waste for future generations;
- the simultaneous reports of leaks in the Dublin Port Tunnel and problems with the Luas tracks, following on from cost overruns and missed completion deadlines, have compounded public distrust in the Government’s ability to deliver much needed infrastructure;
- the report into childcare facilities in the West that showed 85% did not comply with legal standards;
- over 100,000 primary school children are in classrooms with over 30 per room;

- concern that, in spite of promises to increase Garda resources, some areas have fewer Gardaí than in 1988, even though the local population has more than doubled in that time;
- heightened concerns regarding the possibility that CIA ‘extraordinary rendition’ flights, involved in the illegal transfer of prisoners to foreign countries for interrogation involving torture, are passing through Irish airports, notably Shannon and Baldonnell;
- continuing widespread corruption in sea fisheries with a management system that is impossible to police, leading to totally unreliable catch records on which the 2006 quotas announced in Brussels in December are based;
- the Madden Report into organ retention;
- the exposure of the Government’s attempts to accommodate incinerator company Indaver’s objections to waste management rules;
- Minister Roche’s trumpeting of improved recycling rates while we still produce more waste per head than any other country in Europe and three-quarters of material retrieved for recycling is exported;
- Minister Parlon’s advice to those living in areas liable to flooding to avoid having expensive carpets or other valuables in ground floor rooms;
- the publication of a report from the Pensions Board advocating more state subsidy of private pensions when the state already forgoes more in tax reliefs on private pensions than it spends on state pensions;
- concerns that the Dormant Accounts Fund will be used by Minister Ó Cuív for political advantage in the run up to the next General Election;
- the release of yet another report on the regulation of charities while the sixteenth year of inaction by the Government clocks up since legislation was promised in 1990;
- the introduction of civil partnerships in Northern Ireland and Great Britain;

and calls on the Government to:

- face the fact that the Accident and Emergency Crisis is primarily caused by a shortage of beds in the system and provide the resources necessary to increase the capacity;
- provide for the proper enforcement of employment regulations rather than trying to reduce immigration at a time when there is a shortage of skilled workers;
- join with the Green Party in seeking an all-party approach to secure the country’s long-term energy requirements over several terms of Government;
- provide serious support for renewable energy technologies, such as biofuels and wind power, and for energy efficiency measures, to reduce Ireland’s contribution to global warming;
- establish proper control systems for major infrastructural projects to ensure that they deliver on time, on cost and up to standard, especially given the level of expenditure proposed in the Transport 21 plan;
- provide proper funding for childcare facilities to maintain acceptable standards and to make inspectors’ reports available to parents;

- fulfill its promise to have a maximum of 20 pupils per classroom;
- tackle crime and anti-social behaviour at source with more Gardaí out and about in the communities;
- honour our international human rights obligations and heed the call of the Irish Human Rights Commission and the Council of Europe to inspect all CIA controlled aircraft passing through Irish airports;
- seek radical reform of the fisheries policy at EU level before many species are wiped out and set catch quotas that recognise the real crisis in levels of stocks;
- instigate a statutory inquiry into organ retention as requested by Parents for Justice and to expedite legislation recommended by the Madden Report;
- abandon the discredited policy of incineration as the main plank of waste management policy;
- promote a strong campaign for waste reduction and to provide supports for recycling enterprises in Ireland so that we are not exporting jobs as well as waste;
- take climate change seriously and provide proper protection against flooding and ensure that new development is not allowed in areas liable to flooding;
- examine reform of the state pension which is proportionally one of the lowest in Europe;
- set up an independent allocation board to oversee the dispersal of the Dormant Accounts Fund;
- prioritise the long awaited Charities Regulation Bill so that the public can be confident that the hard-earned cash they donate will be properly used; and
- establish a facility in the Republic of Ireland for the registration of civil partnerships.” — *Trevor Sargent, John Gormley, Dan Boyle, Ciarán Cuffe, Eamon Ryan, Paul Gogarty.*

62. “That Dáil Éireann:

noting that,

- the cost of renting buildings for State Departments and agencies has risen by more than 80% in the past two years to over €183 million annually;
- more than 90% of the total State rent spend being concentrated in the Dublin area, with an uneven distribution of state rents nationwide;
- a considerable portion of State rents are wastefully expended on ‘unallocated’ properties;
- financial institutions and pension funds account for more than €56 million of the State’s lease expenditure;
- property developers and speculators are the principal beneficiaries of the State’s annual leasing and rental bill;

calls on the Government to:

- abandon its ill-advised policy of disposing of the psychiatric hospitals, as proposed in the recent report ‘*A Vision for Change*’;
- prepare an audit of the assets contained in each hospital complex, with a view to assessing their adaptability and feasibility for use by Government Departments and agencies;
- examine the value for money aspect of purchasing property for State use, as opposed to leasing property;
- establish an independent State agency to oversee the management of State accommodation requirements, with a view to securing optimum value for taxpayers’ money.”— *Paudge Connolly*.

63. “That Dáil Éireann,

- noting that the City Development Plan adopted by Dublin City Council in 2005 prohibits any thermal treatment on the Poolbeg Peninsula;
- calls on the Minister for the Environment, Heritage and Local Government to ensure that the democratic wishes of the elected members of Dublin City Council are upheld and that no further work is carried out in relation to the development of an incinerator on the Poolbeg Peninsula, Dublin 4 or its surrounding environs.” — *Arthur Morgan*.

[7 March, 2006]

64. “That Dáil Éireann, having regard to the stated policy of the elected members of Dublin City Council, as set out in the Dublin City Development Plan 2005-2011 made on the 14th February, 2005, to oppose the siting of an incinerator on the Poolbeg Peninsula,

- calls on the Minister for the Environment, Heritage and Local Government, using his powers under section 24 (c) of the Waste Management Act 1996, to require the managers of Dublin City Council, Dun Laoghaire-Rathdown County Council, Fingal County Council and South Dublin County Council to vary the replacement waste management plan for the Dublin region, made by them on the 11th November, 2005, by the deletion of paragraph 18.8 and the exclusion of the siting on Poolbeg Peninsula of a ‘waste to energy (incineration)’ plant; and
- further calls upon the Minister for the Environment, Heritage and Local Government to come forward with an environmentally sustainable and practical set of policies that will deal with the island of Ireland’s waste management needs while respecting the distribution and location of the population of the island.” — *Ruairi Quinn, Pat Rabbitte, Liz McManus, Emmet Stagg, Thomas P. Questions to the Minister on 9th March, 2006, notes that the Minister's behaviour was totally unbecoming for a member of this House and calls on the Minister to withdraw the remarks forthwith."— *Trevor Sargent, John Gormley, Dan Boyle, Ciarán Cuffe, Paul Gogarty, Eamon Ryan.*

[21 March, 2006]

66. "That Dáil Éireann,

recognising the:

- high cost of gas and electricity to the Irish industrial and domestic consumer and the consequent implications for the economy;
- increasingly urgent need to foster and encourage the promotion and production of alternative or renewable energy;
- apparent failure of the Government through deregulation to meet consumer needs and security of supply;
- lack of a properly funded and co-ordinated plan for the production of bio-fuels, wind/hydro or other alternatives;
- likely penalties accruing from failure to meet the Kyoto Principles;
- need to encourage energy and emission labelling in respect of motor transport;
- need to promote and encourage conservation in respect of home heating; and
- failure of the Government to take the necessary steps to address these issues.

calls on the Government to:

- introduce ambitious plans to promote and encourage the production of renewable energy;
- introduce a comprehensive and cross departmental plan to promote the concept of alternative energy with specific responsibilities on the Department of Communications, Marine and Natural Resources, Department for the Environment, Heritage and Local Government, Department of Transport, Department of Agriculture and Food and Department of Finance;
- evaluate the implications arising from Kyoto and the options available;
- ensure the immediate provision of the required inter connectors to facilitate security of supply and sale of surplus power when available;
- encourage energy and emission labelling in respect of motor vehicles, domestic dwellings and public buildings, with the objective of achieving a reduction in consumption, import substitution and greater competition within the market;
- set up a centre of excellence incorporating Sustainable Energy Ireland and linked into third level institutions to co-ordinate research and development in the promotion and production of alternative energy;

- encourage the growth of a specific number of tree species with a high carbon sequestration capacity; and
- introduce an energy policy that will ensure that Irish consumers can avail of energy at competitive prices within Europe.” — *Bernard J. 67. “That Dáil Éireann:

acknowledges the,

- central role of the postal services in the social and economic life of the country;
- commitment of the post office, collection and distribution services since the foundation of the State;
- ongoing need for the provision of a modern, efficient and competitive postal service through An Post, in keeping with the demands and requirements of the domestic and industrial consumer;
- potential value of the broadly based network of post offices, sub-post offices and staff; and
- need for the necessary legislative or management decisions required to facilitate the provision of postal, packaging and transmission services in the future;

calls on the Government to:

- address the poor labour relations situation within An Post which has caused unease and distrust in the workforce and clarify the circumstances whereby salary or pension payments or increases, due or anticipated, have not been met;
- create the climate to facilitate the retention of the post office network including sub-post offices and the provision of a modern, competitive, efficient postal service in-line with the increasing needs of the consumer;
- recognise the existence of a public service obligation;
- provide for the modernisation of the collection, distribution and counter services using modern technology;
- facilitate the development and extension of a wide range of compatible services through the post offices; and
- encourage all Government Departments, including the Department of Social and Family Affairs to use the services of An Post for payments or other financial transactions or transmissions. ” — *Bernard J. 68. “That Dáil Éireann, entering the last year of the 29th Dáil and the Government’s last chance to tackle the major problems facing the country before they face the electorate, calls on the Government to:

- end their pro-developer policies in housing and put the needs of those searching for a home first, by committing, like the Green Party, to build 10,000 affordable and social houses every year until the waiting lists are cleared;
- provide secure long-term tenure for people dependent on the rental sector;
- deliver better primary care, provide more acute beds and step down facilities, and extend medical card eligibility to pre-1997 levels, in order to address the A&E crisis;
- provide more resources on the ground for Gardaí, especially for community policing, to tackle crime and declining detection rates, instead of the Tánaiste and Minister for Justice, Equality and Law Reform’s approach of attempting to legislate the problems away in the Dáil chamber;
- finally realise that new housing developments need new schools and to plan properly so that a maximum class size of 25 can be achieved in primary schools without resorting to the virtual ‘shift’ system that some overcrowded schools have been forced to adopt;
- immediately address the unacceptable burden on parents of childcare costs in this country, which according to the OECD are amongst the highest in Europe, and to initiate immediate reforms of the largely unregulated and underdeveloped childcare sector in Ireland;
- respond in a serious way to the looming energy crisis by setting a target that 50% of our total energy needs will come from renewables by 2020;
- adopt country-wide the high energy efficiency standards for buildings already successfully achieved by Green Party councillors in Fingal and Dún Laoghaire-Rathdown;
- end the ideological rift between Government parties that has held up the provision of extra buses and bring pressure to bear to solve the farcical delay in the introduction of integrated ticketing;
- bring forward plans for the Dublin Metro, Luas extensions, Cork suburban railway and the Western Rail Corridor which are more urgent than ever given increased road congestion around our cities and rising petrol prices;
- abolish tax relief schemes that have little social, economic and environmental purpose and are primarily being used by the super rich to avoid paying taxes;
- re-introduce the levy on the huge profits being made by the banks at 5%;
- institute a state-of-the-art waste management infrastructure that is environmentally sound and not reliant on incinerators; and

— end the U.S. military flights through Shannon Airport.” — *Trevor Sargent, John Gormley, Dan Boyle, Ciaran Cuffe, Eamon Ryan, Paul Gogarty.*
