## GNÓ COMHALTAÍ PRÍOBHÁIDEACHA PRIVATE MEMBERS' BUSINESS

#### *Fógraí Tairisceana: Notice of Motion:*

- 54.** “That Dáil Éireann:

noting:

- that Ireland has the highest incidence of cystic fibrosis in the world;
- that Irish patients experience a much more severe genetic mutation of cystic fibrosis than that experienced by patients in other countries; and
- that a person born in this State with cystic fibrosis has an average life expectancy which is many years lower than a patient suffering from cystic fibrosis in Northern Ireland or the United Kingdom;

recognising:

- that in January 2008 the Minister for Health and Children and the HSE promised to fast track the development of 14 single rooms by the end of the summer, as an interim solution to the bed problem, however only eight beds have been delivered;
- that the HSE planned for the rollout of national neonatal screening service for cystic fibrosis in its 2008 National Service Plan, however this has not happened; and
- that funding for the development of a 120 bedded development at St Vincent's Hospital, of which approximately 30-34 beds were to be dedicated for cystic fibrosis patients, has been delayed until 2011 at the earliest;

calls on the Minister for Health and Children and the Government to:

- instruct the HSE to commence immediately the development of the urgently needed and life saving cystic fibrosis unit at St. Vincent's Hospital and thus provide 34 in-patient single ensuite beds as part of a 120 bedded development at St Vincent's Hospital so that these facilities will be available in 2011." — *James Reilly, Enda Kenny, Bernard Allen, James Bannon, Seán Barrett, Pat Breen, Richard Bruton, Ulick Burke, Catherine Byrne, Joe Carey, Deirdre Clune, Paul Connaughton, Noel J. *Leasú:*

*Amendment:*

1. To delete all words after "That" and substitute the following:

"Dáil Éireann welcomes:

- the strong policy priority that has consistently been given by the Government in recent years to the development of services for persons with cystic fibrosis in Ireland;
- the fact that building of the ward unit at St. Vincent's hospital, including dedicated facilities for persons with cystic fibrosis, will commence within the next nine months and will be operational as early as possible in 2011;
- the related investments made to date at St Vincent's Hospital, as the national adult tertiary centre for the provision of cystic fibrosis services, involving the recruitment

of 19 additional staff and the significant improvement to the physical infrastructure of the hospital, including the provision of eight dedicated single ensuite rooms and improved ambulatory care facilities;

- the provision of additional operational funding of some €8.4m since 2006 for the development of cystic fibrosis services nationally, and the additional improvements that have been put in place in other adult and paediatric hospitals;
- the recruitment of an additional 48 staff since 2006, including additional consultants, nurses and health and social care professionals, to this service;
- the expert advice being given on how best to implement a national screening programme for cystic fibrosis in newborns; and
- the cystic fibrosis register that the HSE has established to record data in relation to the incidence, treatments and outcomes for persons with cystic fibrosis which will allow, for the first time, for meaningful comparisons to be made with other jurisdictions.” — *An tAire Sláinte agus Leanaí.*
