Fógraí Tairisceana:

Notices of Motions:

95. “That Dáil Éireann:

- expresses its sympathy to all citizens affected by recent flooding in all parts of the country;
- notes the severe social and economic hardship caused by serious flooding;
- recognises that increased rainfall in Ireland will be a consequence of global warming and that Government will have to adapt to changing climate patterns;
- notes with concern that Government has no co-ordinated and integrated flooding alert system or response plan in the event of serious flooding; and
- recognises that most other developed at risk countries have advanced flood warning systems that act to minimise damage and disruption caused by flooding;

calls on the Government to develop a new national flood alert system to be controlled by the Environmental Protection Agency and Met Éireann that is based on a system of flood alert codes that results in co-ordinated preventative action from the local authorities, civil defence, the Office of Public Works, and the emergency services; and

calls on the Minister for the Environment, Heritage and Local Government to:

- immediately support local authorities in providing safe drinking water to communities with potentially contaminated water supplies caused by flooding;
- immediately request reports from all local authorities to outline the damage caused and reasons for recent flooding;
- review the national flood relief capital programme in order to prioritise areas subject to frequent flooding; and
- explore the possibility of any climate change assistance or disaster relief funds being made available to victims of climate change damage, particularly those affected by chronic flooding.” — *Phil Hogan, Enda Kenny, Bernard Allen, James Bannon, Seán Barrett, Pat Breen, Richard Bruton, Ulick Burke, Catherine Byrne, Joe Carey, Deirdre Clune, Paul Connaughton, Noel J. Leasú:

Amendment:

- I. To delete all words after “to adapt to climate patterns”, in the third indent and substitute the following:

- “— expresses its appreciation to all the personnel who assisted in the rescue and provision of assistance to members of the public affected by the recent floods;
- notes the co-ordinated response of the major response agencies and voluntary agencies to the flooding;
- notes the significant flood defence measures undertaken at known flood risk locations;
- notes the Office of Public Works expenditure of €100 million in the last 5 years on flood relief, including an anticipated capital expenditure of €38 million this year;
- commends the investment of in excess of €200 million from now to 2014;
- notes the OPW website www.flooding.ie which provides practical help to all those whose homes or businesses may be at risk of flooding and the website www.floodmaps.ie which provides useful information to planning authorities, a number of bodies or organisations and the public for the purpose of land-use zoning, development control, planning of infrastructure, identification of properties at risk, flood warning and raise the general awareness amongst the public of the risk to property and possibly life;
- notes the significant funding made available by the Government over 5 years under the Water Services Investment Programme in response to specific environmental, public health and economic needs; and
- notes the draft guidelines ‘*The Planning System and Flood Risk Management*’ published by the Minister for the Environment, Heritage and Local Government and the Minister of State at the Department of Finance with responsibility for the Office of Public Works.” — *An tAire Comhshaoil, Oidhreachta agus Rialtais Áitiúil.*

96. “That Dáil Éireann:

notes that:

- the economy was allowed over recent years to become grossly over-dependent on the construction sector accounting for over 20% of the State’s GDP and employing one in every eight workers at its peak;
- an over-inflated construction sector masked a steady flow of job losses, particularly in provincial towns;

P.T.O.

- the Government failed to accept that the over-reliance on the construction sector was not sustainable and could not continue indefinitely and consequently failed to put in place a strategy to deal with the anticipated contraction of the construction sector or the needs of those dependent on that sector for their employment;
- an estimated 30,000 plus construction workers have lost their jobs to date in 2008;
- the lack of alternative employment is resulting in workers who lost their jobs emigrating in search of work;
- the Government still has not brought forward a strategy to get these workers back into employment and/or training;
- the Government allowed the social security entitlements of many construction workers to be undermined by failing to take action as unscrupulous employers coerced these workers into registering as self-employed; and
- 50.3% of those who lost their jobs in the construction sector in the year to the end of June were under the age of 25 while 23% of those under the age of 25 still employed in the construction sector at the end of June did not have a Leaving Certificate qualification;

recognises:

- the urgent need for the Government to bring forward a strategy that prioritises the needs of those construction sector workers who have lost their jobs or are at risk of losing their jobs;
- the need to make sure that a controlled reduction in the dependency on the construction sector includes measures to ensure continued employment opportunities in construction as well as measures to enable workers from this sector to access alternative employment; and
- the need for the Government to prioritise the creation of alternative employment opportunities;

calls on the Government:

- to increase our competitiveness and aid economic recovery by frontloading infrastructure projects that can employ workers from the construction sector, including transport, schools, crèches, hospital and primary care development;
- to implement a State Housing Infrastructure Plan, designed to address both housing need and unemployment in the construction sector, including:
 - the construction of the required social housing by local authorities on a targeted basis over 5 years;
 - the completion of currently stalled regeneration projects in local authority housing estates and complexes;
 - a programme of upgrading of local authority dwellings, with special emphasis on housing for older people;
 - a social housing maintenance programme, equipping local authorities to ensure that their housing stock is kept in good repair;
 - a home heating programme to ensure that local authority tenants, especially older people, have sufficient and energy efficient heating in their homes;
 - a home insulation programme to conserve energy and reduce energy costs for householders; and
 - a home adaptation programme to carry out essential works to adapt homes

for the use of people with disabilities, in tandem with reform of the Disabled Persons' Housing Grant;

- to introduce specific training and upskilling courses for alternative industries to construction to be made available through FÁS and the state's universities and DITs;
- to provide special retraining for construction workers so they can work in the energy saving and renewable energy sectors;
- to introduce a specific back to education scheme for construction sector workers under the age of 25 who did not complete second level education;
- to introduce a mortgage support package for those who have lost their jobs;
- to take steps to deal with the predicament of construction sector workers who were pushed into becoming self-employed by their employers and who consequently do not have adequate social insurance contributions to access social welfare entitlements by allowing for contributions for the last five years to be considered rather than the normal governing contribution period of two years; and
- to introduce measures to allow apprentices to complete apprenticeships that were curtailed due to the recession in construction.” — *Caoimhghín Ó Caoláin, Arthur Morgan, Martin Ferris, Aengus Ó Snodaigh.*

97. “That Dáil Éireann:

deplores:

- the savage cuts to the budget of the Equality Authority which has removed 43% of its budget and will severely limit its capacity to carry out its core functions;
- the ill-thought out and poorly planned decision to decentralise the Equality Authority which has resulted in the loss of experienced and expert staff;
- the treatment of the Equality Authority by the Government which ultimately resulted in the resignation of its Chief Executive and a Board Member;
- the unprecedented cut to the budget of the Irish Human Rights Commission which has removed 24% of its budget and will severely limit its capacity to carry out its core functions;
- the weakening of the Irish Human Rights Commission despite its importance in the context of the Good Friday Agreement; and
- the disproportionate budget cuts to human rights and equality bodies despite the myriad of agencies under the remit of the Department of Justice, Equality and Law Reform;

calls on the Government to immediately:

- engage bilaterally with the Equality Authority and Irish Human Rights Commission to ascertain their resource needs;
- provide the necessary funding to allow the Irish Human Rights Commission and the Equality Authority to carry out their full remits; and
- affirm the Government's commitment to uphold human rights and equality in Irish

society and to deliver on its own stated policies in these areas.” — *Charles Flanagan, Enda Kenny, Bernard Allen, James Bannon, Seán Barrett, Pat Breen, Richard Bruton, Ulick Burke, Catherine Byrne, Joe Carey, Deirdre Clune, Paul Connaughton, Noel J.
