*Notices of Motions:*

**212.** “That Dáil Éireann:

notes that:

- current beef prices are in the €3.75-€3.85 per kilogram range, which is below the cost of production;
- suckler farmers continue to depend on Common Agricultural Policy (CAP) direct payments for their livelihoods, with average incomes just below €13,000 according to Teagasc;
- there are 951,397 suckler cows kept on 66,069 Irish farms;
- 90 per cent of all beef produced on Irish farms is exported, with total beef exports worth €2.4 billion in 2018;
- Brexit poses one of the biggest ever threats to the beef sector for suckler farmers, exporters and related jobs, with 50 per cent of all beef exports going to the United Kingdom (UK);
- a no deal Brexit would be catastrophic for the Irish beef sector with World Trade Organization tariffs of 70 per cent on exports entering the UK which would result in an additional €780 million cost, while the price of beef produced by farmers would

fall to an estimated €2.50 per kilogram;

- only 13 per cent of Irish beef exports went to non-European Union (EU) countries in 2018;
- Ireland has just three agricultural attachés stationed in embassies outside Europe currently, while Bord Bia has offices in five countries outside of the EU to grow market share for Irish beef produce;
- the Beef Forum has become a talking shop and failed to deliver on commitments entered into for farmers, including the introduction of a market index for price transparency;
- insufficient urgency has been shown by the Government to address the lairage capacity issue flagged last year that is constraining the live export of calves to the continent;
- farmers have lost faith in the Quality Pricing System (QPS) grid; and
- the Government has failed to adequately promote and incentivise the uptake of Producer Organisations (POs) in the beef sector resulting in zero registrations with the Department of Agriculture, Food and the Marine since a legal basis was given to POs in 2016;

further notes:

- how recent comments by the Taoiseach regarding meat consumption have greatly angered beef farmers across the country and undermined commitments in the Programme for a Partnership Government, as well as Bord Bia's ongoing work to promote Irish beef produce in markets abroad;
- that the Brexit Loan Scheme for farmers, fishermen and food businesses announced in October 2017 has still to open 17 months on; and
- that the Government has signed off at EU level to permit 70,000 additional tons of South American beef into Europe for EU-MERCOSUR negotiations; and

calls on the Government to:

- immediately request Brexit mitigation funding for farmers, specifically exceptional and market disturbance aid for beef and other vulnerable sectors under Article 219 of the CAP Common Market Organisation Regulation;
- seek relaxation of State aid ceilings in order to increase the grant aid permissible to safeguard exposed exporting enterprises and associated jobs from Brexit in the agri-food sector;
- work with Bord Bia, livestock exporters and French authorities to deliver enhanced lairage capacity at Cherbourg Port in order to increase the live export of calves;
- deliver a fully funded, fair, and simpler CAP post 2020 that safeguards direct payments with measures to directly support all low-income farm sectors, including the beef sector;
- introduce a beef market index for price transparency as committed to under the Beef Forum and examine the feasibility with stakeholders of requiring processors to report wholesale prices on a regular basis;
- increase farmer transparency and introduce more robust measures around carcase trim and grading, including publishing details of on-the-spot fines for factories breaching EU carcase trimming rules;
- strengthen the position of the primary producer in the food supply chain and transpose

EU Directive (2018/0082) on unfair trading practices into Irish law swiftly, which should be enforced by an independent authority;

- consult with stakeholders and tackle any barriers associated with setting up beef POs;
- protect the beef sector and suckler farmers in all upcoming EU trade deals and reject increased beef access in any potential agreement with South American MERCOSUR countries;
- secure additional funding in the next CAP programme to achieve a suckler cow support payment of €200 per cow;
- work with stakeholders to ensure all animals which come from a quality assured farm should receive some level of bonus payment;
- commission a full review of the QPS grid and the four movement rule;
- secure Protected Geographical Indication status for Irish grass-fed suckler beef at EU level in order to increase its promotion as a premium product; and
- immediately open the Brexit Loan Scheme for farmers, fishermen and food businesses, which was originally announced in October 2017.” — *Charlie McConalogue, Jackie Cahill, Bobby Aylward, John Brassil, Declan Breathnach, James Browne, Mary Butler, Thomas Byrne, Dara Calleary, Pat Casey, Shane Cassells, Jack Chambers, Lisa Chambers, Niall Collins, Barry Cowen, John Curran, Stephen S.
