**87a.** “That Dáil Éireann:

recognises that:

- many of our towns and villages do not have water and wastewater treatment services;
- we need people living in communities to develop growth centres;
- towns and villages need investment to provide the infrastructure necessary to attract families to live, work and raise their families;
- clean water and wastewater systems are essential components to grow communities; and
- the excessive cost to the homeowner for the provision of water and wastewater treatment services is a barrier to providing homes;

acknowledges that:

- regional development will provide the catalyst for economic recovery post Covid-19 and Brexit;
- local authorities and developers require clear policies and actions to ensure proper planning takes place; and
- the provision of housing for all is a national economic and social imperative, and infrastructural costs in the provision of water and wastewater treatment cannot be borne solely by house purchasers; and

calls on Government to:

- create a strategic plan to make regional development a reality by investing in water and wastewater infrastructure in our towns and villages;
- implement a development lead infrastructure scheme to fast track infrastructural development in our towns and villages to create balanced development; and
- put in place a transparent cost structure for new, and extensions to existing, water and wastewater treatment infrastructure.” — *Cathal Berry, Seán Canney, Peter Fitzpatrick, Noel Grealish, Michael Lowry, Verona Murphy, Denis Naughten, Matt Shanahan, Peadar Tóibín.*
