12a. “Go mbeidh sé, de bhun Bhuan-Ordú 187, ina threoir don Dáil i gCoiste ar an mBille um Pleanáil agus Forbairt, 2020, go bhfuil cumhachtaí aige chun leasuithe a dhéanamh ar an mBille atá lasmuigh de raon feidhme fhorálacha láithreacha an Bhille, i ndáil le:

- (a) leasuithe ar Chuid XA den Acht um Pleanáil agus Forbairt, 2000 chun a cheangal ar an mBord Pleanála iarratas ar thoiliú ionaid in éagmais imthosca eisceachtúla a dhiúltú agus cumasú do dhaoine den phobal aighneachtaí a dhéanamh agus tuairimí a thabhairt i ndáil leis an gceist i dtaobh an ann nó nach ann do na himthosca sin; agus
- (b) leasuithe ar an Acht um Thionóntachtaí Cónaithe, 2004 chun tréimhsí fógra i ndáil le fógraí foirceanta arna seirbheáil ar thionóntaí faoi thionóntachtaí teaghaisí a fhadú le linn na tréimhse ón 11 Eanáir 2021 go dtí an 12 Aibreán 2021 mar gheall ar mhainneachtain cíosa a bheidh dlíte a íoc agus méaduithe cíosa ar thionóntachtaí teaghaisí le linn na tréimhse sin a thoirmeasc.

That, pursuant to Standing Order 187, it be an instruction to the Dáil in Committee on the Planning and Development Bill 2020, that it has power to make amendments to the Bill which are outside the scope of the existing provisions of the Bill, in relation to:

- (a) amendments to Part XA of the Planning and Development Act 2000, for the purpose of requiring *An Bord Pleanála* to refuse an application for substitute consent in the absence of exceptional circumstances and enabling members of the public to make submissions and observations in relation to the question as to whether such circumstances exist; and
- (b) amendments to the Residential Tenancies Act 2004, for the purposes of increasing notice periods in relation to notices of termination served on tenants under tenancies of dwellings during the period from 11th January, 2021 to 12th April, 2021, for failure to pay rent due and prohibiting increases in rents on tenancies of dwellings during that period.”

—*An tAire Tithíochta, Rialtais Áitiúil agus Oidhreacht.*

17a. “Go dtabharfaidh Dáil Éireann dá haire an Tuarascáil ón Roghchoiste um Chuntais Phoiblí dar teideal ‘Scrúdú ar Ráiteas Airgeadais na Gníomhaireachta um Bainistiú Sócmhainní (GNBS), 2019 agus Tuarascáil Speisialta (109) ón Ard-Reachtair Cuntas agus Ciste’, ar leagadh cóipeanna di faoi bhráid Dháil Éireann an 3 Nollaig 2020.

That Dáil Éireann shall take note of the Report of the Select Committee of Public Accounts, entitled ‘Examination of NAMA’s 2019 Financial Statement & C&AG Special Report 109’, copies of which were laid before Dáil Éireann on 3rd December, 2020.”

Notices of Motions:

121. “That Dáil Éireann:

recognises:

- that the Covid-19 pandemic and the resulting economic recession have negatively affected many peoples' mental health and created new barriers for people already suffering from mental illness and substance use disorders;
- that many mental health organisations have reported significant increases in the use of their online and telephone services due to a broad range of issues impacting young people, which include anxiety and depression;
- the share of health funding allocated to mental health in recent years ranged from 5.7 per cent to 6.3 per cent, while in 2019 it was at 6.3 per cent, but will fall dramatically to 5.2 per cent in 2021, despite an expected significant rise in demand for supports and services in the wake of the Covid-19 pandemic;
- that current Government policy is completely failing to achieve the Sláintecare objective of 10 per cent of health monies being allocated to mental health, even though that recommendation is below international recommendations;
- that it is incomprehensible for the mental health share of the overall health budget to decline, at a time when demand for the services has never been greater, and as Ireland faces the implementation of the mental health strategy ‘Sharing the Vision – A Mental Health Policy for Everyone’ that was launched just a few months ago;
- the immeasurable and long-lasting impact of the restrictive lockdowns, and lack of an exit strategy, especially on older and vulnerable people, who are experiencing severe social isolation and loneliness;
- that the Irish mental health services are grossly underfunded, and this has been compounded by the Covid-19 pandemic;
- the very significant impact on health and well-being from the Covid-19 virus and the associated lockdowns;
- the drastic impact of the Covid-19 virus, Government policies and associated lockdowns on other patients due to postponed medical treatment or check-ups;

- the drastic impact of the Covid-19 virus, Government policies and associated lockdowns on cancer screening services, with many cancers going undetected due to the suspension of cancer screening services;
- that the hospital and long-term care system in Ireland has suffered from significant under-investment for many years;
- that the entire public health system itself is another area that has suffered from many years of chronic under-investment;
- the tremendous and Trojan efforts made by all front-line workers, particularly healthcare workers during the Covid-19 pandemic;
- the Government's failure to provide an adequate remuneration to student nurses, who have been doing incredible work during the pandemic, while facing the same Covid-19 risks as any other healthcare worker, with the same bills, but receiving nothing in return;
- the powerful solidarity with family, neighbours and fellow citizens which emerged in every community, despite the often mixed and confused messaging of the Government;
- the complete failure of the Government to put in place a seamless replacement service to the European Union (EU) Cross Border Directive (CBD) for patients who wish to avail of treatments in Northern Ireland, and the grave impact this will have on the State's already crumbling healthcare system;
- that Irish households and businesses have experienced very considerable economic disruptions from the Covid-19 pandemic;
- that Government's policy on restrictions has exacerbated or created a deeper urban-rural divide, by insisting on the ongoing closure of small rural pubs and confining people to a two kilometre or five kilometre area, with little access to any services in many rural areas;
- the continual closure of small rural pubs has left hundreds of rural villages decimated and exacerbated rural isolation and loneliness;
- that the restrictive lockdowns, without a proper social and economic exit plan on re-opening the country, will cost tens of thousands of jobs to be lost;
- that the economy has been hit here much harder than necessary, due to the lack of any cohesive system of testing and contact tracing;
- that the Covid-19 pandemic has again highlighted the complete lack of adequate services, such as public transport, broadband and school transport in many rural areas;
- the lack of Government support to Irish Small and Medium Enterprises (SMEs) who are unable to obtain cash flow from the pillar banks, despite the European Central Bank making approximately €9 billion available to Ireland's banking sector, to support enterprises during the Covid-19 pandemic; and
- the complete failure of the €2 billion Governments Covid-19 Credit Guarantee Scheme (Covid-19 CGS) due to SMEs being unable to access it, due mainly to:
 - stringent restrictions;
 - high interest rates being charged; and
 - exclusion of many small businesses from accessing the scheme; and

calls on the Government to:

- provide additional funding of at least €250 million or a 25 per cent increase, to begin to fund the mental health fall-out from the Covid-19 pandemic in 2021;
- immediately allow rural pubs to re-open, while adhering to all public health guidelines, in order to save businesses, protect rural employment, support rural towns and villages and provide a safe place for rural dwellers to meet and socialise responsibly, in order to combat the impacts of rural isolation and loneliness;
- publish a clear, transparent and concise exit strategy from this virus, so that everyone can begin to plan for the future and know that there is light at the end of the tunnel;
- provide all healthcare front line workers with a Christmas bonus payment;
- end the exploitation of student nurses and pay all final-year interns the same rate as healthcare assistants, increase and expand the clinical placement allowance for all other students, and provide full health and safety protection to all students, including payment if they have to go on Covid-19 related leave;
- implement an emergency programme to clear the backlogs in screening and treatments due to postponed medical treatments or check-ups;
- again, put an alternative scheme in place to ensure a seamless transition to the EU CBD from 1st January, 2021;
- implement measures to fast track cancer screening services and procedures;
- implement an internationally acceptable, cohesive system of Covid-19 testing and contact tracing;
- agree to a debate and vote in Dáil Éireann in January 2021, on the implementation of the regional and rural development, which is underpinned in the Project Ireland 2040 plan;
- offer tangible supports to Irish small and medium sized businesses by forcing Irish banks to lend to businesses at interest rates comparable to other EU countries (as opposed to the current rip-off rates being charged – despite, the banks obtaining the funds at rates as low as minus one per cent), in order to support cash-flow until the Covid-19 pandemic passes; and
- immediately examine, simplify and reduce the interest rate on the failed €2 billion Government Covid-19 CGS aimed at SMEs, and consider removing the pillar banks from the administration of the funds, while extending the scheme until the end of 2021.” — *Mattie McGrath, Michael Collins, Carol Nolan, Michael Healy-Rae, Richard O'Donoghue, Danny Healy-Rae.*

[15 December, 2020]

Leasú:

Amendment:

1. To delete all words after “Dáil Eireann” and substitute the following:

“acknowledges:

- the extraordinary solidarity, determination and resilience shown this year by communities and citizens in Ireland’s fight against Covid-19;
- the widespread support and adherence to public health measures by the public, communities, voluntary organisations and workplaces; and
- the critical contributions of workers and volunteers across Irish society, including

healthcare, education, childcare, justice, the voluntary sector, retail, distribution, utilities, hospitality and many more;

notes the enormous human, societal and economic costs of the Covid-19 pandemic, including:

- a total of 2,126 Covid-19 related deaths and more than a total of 76,449 confirmed cases of Covid-19 in Ireland;
- the adverse impact of Covid-19 on existing hospital waiting lists;
- a significant impact on mental health and well-being and the need for a corresponding increase in mental health services and supports across the country;
- an increase in isolation and loneliness for many people due to the impact of Covid-19 measures;
- the closure of many viable businesses across the country and the devastating impact on particular sectors including the arts, hospitality, tourism and sport; and
- an increase in the seasonally adjusted unemployment rate to 7.5 per cent with 71,800 more people unemployed compared to last year;

further notes that, thanks to the collective efforts of the Irish people:

- Ireland currently has the lowest 14-day and 7-day incidence rates of Covid-19 in the European Union;
- Ireland's hospitals, including critical care facilities, have not been overrun due to Covid-19; and
- Ireland has had the biggest fall in Covid-related deaths of any European country in Wave Two compared to Wave One;

further again notes the all-of-Government response to Covid-19, including:

- fiscal support of over €25 billion, mostly in the form of 'direct' taxation and expenditure measures;
- the recent public service pay deal, which is heavily weighted towards those at lower incomes with a headline increase of approximately 5 per cent for the lowest paid public servants;
- weekly payments valued to hundreds of thousands for people in receipt of the Covid-19 Pandemic Unemployment Payment to help cushion the population from sudden income shocks at a cost of €4.8 billion;
- essential financial supports provided to community and voluntary organisations and social enterprises to enable them to continue to provide essential goods and services on a local level for communities across the country in the form of the €4.2 million Covid-19 Emergency Fund and the €45 million Covid Stability Fund, as well as a €5 million Innovate Together Fund focused on supporting innovative responses to the Covid-19 crisis, and a range of other rural investment schemes being provided by Government;
- protective measures to ensure ongoing provision of healthcare including €4 billion to protect, reform and expand health and social care services and implement universal healthcare in Budget 2021; and
- measures to protect the elderly, vulnerable groups and those experiencing loneliness and social isolation, including significant funding for mental health services, with that budget increasing to €1.076 billion in 2021;

affirms its support for vaccines;

welcomes the plans to approve and rollout vaccines for Covid-19 in Ireland in early 2021, or potentially to commence in late 2020; and

notes and applauds the success of the Health Service Executive and patient advocates in reversing the fall in uptake of the human papillomavirus (HPV) vaccine.”

—*An tAire Sláinte.*

124a. “That Dáil Éireann, in view of the serious threat that Covid-19 poses to people all over the world:

- calls on the World Trade Organization (WTO) to allow all countries to choose to neither grant nor enforce patents and other intellectual property related to Covid-19 drugs, vaccines, diagnostics and other technologies for the duration of the pandemic;
- mandates the Government to demand that European Union policy is changed so as it votes at the WTO to allow this to occur, and Ireland should support the proposal brought forward by India and South Africa to suspend aspects of the WTO TRIPS Agreement until the pandemic is over; and
- calls for full open disclosure of all scientific and clinical trial data related to the development and production of such vaccines, and should this occur, further calls for the convocation of an expert panel to independently analyse the data and develop public health communication strategies based on their findings, that aim to increase public trust and participation in the immunisation process.” — *Richard Boyd Barrett, Mick Barry, Gino Kenny, Paul Murphy, Bríd Smith.*
