19. Tairiscintí nach ón Rialtas: Non-Government Motions:

1. “That Seanad Éireann—

notes:

— the 57 recommendations of the Motor Insurance Advisory Report relating to Government Departments and Agencies, and the 2002 consultants report on speed cameras commissioned by the National Roads Authority;

recognises:

- the success to date of the penalty points system in reducing road fatalities;
- the lack of resources available to the Gardaí to enforce our road traffic laws and implement the penalty points system in the long-term;
- the extraordinarily high costs for insurance premiums quoted to drivers under the age of 30;
- that the recently-established Personal Injuries Assessment Board is not yet dealing with motor accident compensation claims;
- that driver instruction is not supported or regulated by the State; and
- that the Irish driving test has not been updated for 20 years and is perceived as being unfair and has an unacceptable failure rate;

condemns the Government for its delay in implementing the necessary reforms to alleviate the insurance crisis facing young drivers and further condemns the Government for failing to invest adequately in long-term road safety education and enforcement;

and calls on the Government to:

- ring-fence the proceeds of the 2% levy on motor insurance for investment in road safety initiatives;
 - enact the outstanding recommendations of the MIAB report;
 - introduce free compulsory driving lessons for all drivers before they sit the driving test;
 - implement a complete overhaul of the driving test based on making it a fair test and relevant to 21st century Irish driving conditions;
 - purchase 17 new ‘GATSO’ speed camera vans as proposed in the consultants report commissioned by the National Roads Authority;
 - establish immediately the Garda Traffic corps;
 - authorise the Personal Injuries Assessment Board immediately to begin dealing with motor accident compensation claims; and
 - use its remaining period of time as President of the EU to prioritise further reform of the EU common internal motor insurance market.”

[18 February, 2004]

2. “That Seanad Éireann

- condemns the blatant and cynical move by the Minister for the Environment and Local Government in bringing forward guidelines for rural housing, particularly as the said guidelines offer no hope to people in need of housing in rural Ireland and
 - considers that there is an urgent need for the Government to make a statement on the position of local authorities in readjusting their County Development Plans to facilitate the Government’s u-turn on this matter.”
- *Senators James Bannon, Fergal Browne, Brian Hayes, Paul Bradford, Paddy Burke, Ulick Burke, Paul Coghlan, Noel Coonan, Maurice Cummins, Frank Feighan, Michael Finucane, Jim Higgins, Joe McHugh, John Phelan, Sheila Terry.*

[10 March, 2004]

3. “That Seanad Éireann:

- recognises that the services provided by the National Educational Psychological Service (NEPS) are very important to many children throughout the country;
- considers that access to an educational psychologist can be critical in finding out what special educational requirements a child may have, and how best they can be met within the school system;
- notes, however, that access to the services provided by NEPS is extremely slow, with many children waiting an unacceptable amount of time before seeing a psychologist after referral;
- refers to the findings of a recent survey which showed clearly that the average waiting time for a child to see an educational psychologist was 6.5 months with more

than a quarter of schools waiting more than 9 months for access to a psychologist for their students;

- maintains that the Government has a clear responsibility to fund NEPS properly so that such unacceptable delays no longer occur;
- laments the paltry increase in funding to NEPS of only 1% in Budget 2004;
- believes that children who require psychological assessment should be seen within one month of this assessment being requested, with 6 weeks being the maximum permitted waiting time.”

- (a) support adequate monitoring of human rights in Iraq, permitting the monitors to cover human rights abuses in Iraqi territory by any party, and ensuring that their reports are regularly and publicly available;
- (b) extend the mandate of the Special Rapporteur on the situation of human rights in Iraq for a further year, clarifying that the mandate covers all past and present human rights violations in Iraq;
- (c) support the establishment of a UN commission of experts tasked with developing proposals for building the rule of law in Iraq, in consultation with Iraqi civil society;
- (d) support the establishment of an international commission of inquiry mandated to conduct independent, impartial and thorough investigations into past human rights violations, regardless of when they occurred; and
