- condemns the blatant and cynical move by the Minister for the Environment and Local Government in bringing forward guidelines for rural housing, particularly as the said guidelines offer no hope to people in need of housing in rural Ireland and
- considers that there is an urgent need for the Government to make a statement on the position of local authorities in readjusting their County Development Plans to facilitate the Government’s u-turn on this matter.”

2. “That Seanad Éireann:

- recognises that the services provided by the National Educational Psychological Service (NEPS) are very important to many children throughout the country;
- considers that access to an educational psychologist can be critical in finding out what special educational requirements a child may have, and how best they can be met within the school system;
- notes, however, that access to the services provided by NEPS is extremely slow, with many children waiting an unacceptable amount of time before seeing a psychologist after referral;
- refers to the findings of a recent survey which showed clearly that the average waiting time for a child to see an educational psychologist was 6.5 months with more than a quarter of schools waiting more than 9 months for access to a psychologist for their students;
- maintains that the Government has a clear responsibility to fund NEPS properly so that such unacceptable delays no longer occur;
- laments the paltry increase in funding to NEPS of only 1% in Budget 2004;

- believes that children who require psychological assessment should be seen within one month of this assessment being requested, with 6 weeks being the maximum permitted waiting time.”

- (b) extend the mandate of the Special Rapporteur on the situation of human rights in Iraq for a further year, clarifying that the mandate covers all past and present human rights violations in Iraq;
- (c) support the establishment of a UN commission of experts tasked with developing proposals for building the rule of law in Iraq, in consultation with Iraqi civil society;
- (d) support the establishment of an international commission of inquiry mandated to conduct independent, impartial and thorough investigations into past human rights violations, regardless of when they occurred; and

calls for

- root and branch reform of the electoral process,
- a review of the procedures used to update the Electoral Register to ensure greater accuracy and improved convenience for those wishing to register,
- information campaigns on the role of Local Government, the European Parliament, the Houses of the Oireachtas and the President prior to the relevant election and the importance of transfers in the proportional representational system,

P.T.O.

- demands that this Government give full recognition to Ireland's growing drug problem by immediately establishing a high level Ministerial Task Force to report and make recommendations on tackling this problem;
