1. To delete all words after “Seanad Éireann” and substitute the following:

- “notes that according to the Environmental Protection Agency’s latest report, Ireland is now 23.1% above its 1990 Greenhouse Gas Emission levels, 10% above our obligations under the Kyoto protocol and that average temperatures are likely to rise by 0.6% in the coming decades;
- condemns the Government’s Green Paper on Energy for failing to address Ireland’s key energy challenges and calls for a cross-departmental approach to the issue, coordinating the activities of the Departments of Communications, Marine and Natural Resources, Environment, Heritage and Local Government, Agriculture and Food and Transport in order to reduce our reliance on imported fuels, reduce our carbon emissions and drive down the cost of energy; and
- as part of that cross-Departmental agenda, calls for the immediate implementation of key policies including

- investment and commitment to wind energy to be predicated on the putting in place of the necessary interconnecting infrastructure that can ensure continuity of supply in the event of a reduction in supply from wind;
- creation of a market for bio fuels by legislating that all motor fuels must include a blend of fuel from renewable sources. All petrol sold will include a 5% bio ethanol mix and all diesels would contain a 2% bio diesel mix;
- removal of all excise duty on bio fuels produced from renewable energy crops;
- reform of the Vehicle Registration Tax system, through the establishment of energy efficient labelling for motor vehicles with lower and higher rates of VRT for fuel efficient and inefficient vehicles respectively;
- requirement on all public transport vehicles and public service vehicles to convert, where practical and feasible, to forms of bio fuel;
- establish a Centre of Excellence for Alternative Energy charged with ensuring Ireland develops a world class alternative energy sector; and
- amend the National Spatial Strategy to include major renewable energy infrastructure projects.”
