11. “That Seanad Éireann:

notes with concern that:

- Ireland has suffered the longest and deepest recession of any euro-zone country because of reckless domestic management of the economy;
- investment, consumption, employment and living standards continued to decline in the first quarter of this year;
- the seasonally-adjusted numbers of the Live Register rose by a further 5,800 in June and the actual number claiming now exceeds 450,000 for the first time ever;
- the Government plans to cut a further €14 billion from investment spending in between 2011-14 compared with the original commitments in the National Development Plan;
- the estimated taxpayer losses from the Government’s banking strategy has reached €25 billion and is rising, even as it has failed to restore credit availability to industry; and
- market confidence in the Government’s economic plan is declining, as evidenced by the rising gap between Irish and German borrowing costs.

Calls on the Government to:

- recognise that its economic plan is failing to undo the loss of international financial market confidence in Ireland;
- put jobs and industry growth at the centre of its economic strategy;
- review its banking strategy to limit the taxpayers' exposure and to focus resources on supporting new lending to viable businesses;
- delay further cuts to investment spending until employment starts to recover; and
- restructure and re-capitalise the semi-state utilities in order to raise the necessary commercial funding to accelerate investments in water, high speed broadband and clean energy.”.

Leasú:

Amendment:

1. To delete all words after “Seanad Éireann” and substitute the following:

“commends the Government for:

- its management of the economy which means that Ireland has emerged from recession with the strongest GDP growth rate of the euro area in the first quarter of this year;
- the policies it is pursuing to maintain credibility and sustainability in the public finances, which have been recognised internationally;
- the initiatives taken by the Government to preserve the stability of the banking system and to address the issue of asset quality in the banking system through strengthening the banks balance sheets in order to facilitate the flow of credit to viable borrowers and thereby underpin economic recovery;
- the measures taken to protect employment including the Stabilisation Fund, the Temporary Employment Subsidy and the PRSI Exemption scheme with the result that employment levels remain at nearly 1.9 million people, which is about half a million more than in 1997;
- the measures taken to provide additional opportunities in education, training and work placement for the unemployed to assist them in returning to the labour market;

and notes that:

- confidence has improved and spending on discretionary items such as cars has increased;
- the Government has kept spending for investment at high levels relative to national income by international standards;
- the public finances are stabilising and are generally in line with expectations for this point in the year;

P.T.O.

- whilst the labour market has deteriorated significantly recently, nearly 1.9 million people are still in employment, which is about half a million more than in 1997;
- virtually all OECD countries have experienced major economic and financial difficulties over the past two years or so;
- notwithstanding volatility on foreign sovereign debt markets, the NTMA has at the mid year point, raised over 80 per cent of the funding requirements for 2010 and we are in a comfortable position with regard to funding this year and even if we did no further borrowing this year, existing cash reserves would cover our borrowing requirements for the remainder of the year;
- the Government through its ongoing management will continue to address the economic, fiscal and banking sector issues facing the country over the coming years in a responsible and sustainable manner.”.

14. “That Seanad Éireann:

notes with concern that:

- Ireland continues to suffer the longest and deepest recession of any euro-zone country because of reckless domestic management of the economy;
- Consumer spending, output, employment and living standards continued to decline in the second quarter of this year;
- the seasonally-adjusted numbers of the Live Register rose by a further 21,500 in the period April to August and the actual number claiming the dole now exceeds 466,000 for the first time ever;
- the estimated taxpayer losses from the Government’s banking strategy has now reached €28 billion, even as data from the European Central Bank confirms that credit availability for industry continues to worsen;
- domestic and international confidence in the Government’s economic plan is evaporating, as evidenced by the alarming rise in the gap between Irish and German borrowing costs;
- the Government plans to cut a further €14 billion from investment spending in between 2011-14 compared with the original commitments in the National Development Plan;

calls on the Government to steer Ireland away from economic disaster by putting jobs, reform and industry growth at the centre of a new confidence-building economic strategy, in particular by:

- using the National Pension Reserve Fund and sales of non strategic state assets to accelerate the investments in water, high speed broadband and clean energy needed to improve competitiveness and stimulate the economy;
- cutting employers' PRSI rates for the low paid;
- scrapping the Travel Tax as part of a deal with the airline industry to expand services and tourist numbers;
- publishing a full audit of lending commitments by AIB and Bank of Ireland;
- providing partial loan guarantee for small and medium sized enterprises; and
- by publishing an action plan for implementing the recommendations of the National Competitiveness Council and the Competition Authority in order to improve Ireland's cost competitiveness."

18. "That Seanad Éireann:

- notes with concern that 1,132 businesses have been declared insolvent since the start of the year;

- notes that the rate of business insolvency is higher so far in 2010 than for the same period in 2009 and 2008 despite assurances of the economy turning a corner;
- notes with concern that small business are still having difficulty accessing credit through financial institutions for a variety of reasons;
- recognises that the Government strategy of NAMA and bank recapitalisation has not produced a ‘wall of cash’ in credit for small business;
- acknowledges broken Government promises to introduce a credit guarantee scheme for small and medium sized businesses;
- recognises the success of such schemes in countries such as Chile and Taiwan that have delivered business growth and increased trade while not burdening the taxpayer;
- recognises that a loan guarantee scheme is necessary to achieve the goal of establishing strong and long lasting links between SMEs and banks and to encourage entrepreneurship; and

calls on the Government to introduce a loan guarantee scheme for small and medium sized businesses based on the following principles: shared risk with financial institutions, using the resources of the financial institutions to assess loan applications, financial institutions bidding for loan guarantee contracts, and excluding financial institutions that develop a record of approving non-performing loans.”

“welcomes, in particular, the Government’s five year integrated trade, tourism and investment plan, *Trading and Investing in a Smart Economy*, designed to help all Irish businesses compete on global markets and create 300,000 jobs across the Irish economy in both exporting and locally trading firms;

notes the intensive work underway within the Government in relation to further SME Credit Initiatives while at the same time ensuring that banks fulfil their commitments given to Government to lend this sector.

Recognising the important contribution which small and medium enterprises make to economic growth and employment creation, commends the Government for the priority it has given to introducing new and specific initiatives aimed at improving the business environment and supporting directly the further development of the SME sector, in particular;

the measures taken to ensure the continued operation of a sustainable banking sector as a provider of credit to viable enterprises in the State, including

- the introduction in 2009 by the Financial Regulator of a statutory Code of Conduct for Business Lending to SMEs,
- securing a commitment by both AIB and Bank Of Ireland to make available not less than €3 billion each for new or increased credit facilities to SMEs in both 2010 and 2011, including funds for working capital,

— the establishment of the Credit Review Office to measure compliance with the banks' lending commitments, to examine the lending practices of the recapitalised banks and to review refusals of bank credit,

providing continued capital funding of €15m in 2010 to the County and City Enterprise Boards to assist micro enterprises and promote entrepreneurship and recently providing an additional capital funding of €3.3 million to the CEBs, creating more than 450 jobs;

providing financial support to almost 2,000 companies through the Employment Subsidy Scheme and the Enterprise Stabilisation Fund;

improving the cash flow of SMEs by requiring Government Departments to pay their business suppliers within 15 days of receipt of a valid invoice;

the provision of €278m to Enterprise Ireland in 2010, representing a 26% increase on the outturn for 2009, to stimulate the development of new businesses and facilitate the expansion of existing companies through a broad range of initiatives including direct financial and non-financial supports;

the commitment through Enterprise Ireland to invest €175m through the Seed and Venture Capital Programme 2007-12 for companies at the early and growth stages of development;

establishing the €500 million Innovation Fund Ireland to support entrepreneurs so that they can create jobs;

establishing the employer job (PRSI) incentive scheme to reduce business costs associated with hiring new employees;

the provision of €425 million for the implementation of the LEADER Rural Development Programme 2007-2013 to promote sustainable employment creation in the rural economy; and

preserving a low tax regime for business.”.
