6. “That Seanad Éireann:

- recognises that the delivery of an effective Health Awareness and Physical Fitness programme in both primary and secondary schools is essential for the overall well-being of children;
- notes that while there is a new Physical Education curriculum in place at primary school level since 1999, it is not being implemented in full in 65% of schools, 54% of those schools citing lack of facilities and 11% of those schools citing pressure of time due to competition with other subjects; (*Points for Life — Physical Fitness for a Healthy Life*) (November 2011)
- notes that overweight and obesity is a serious problem in Ireland and that between 18% and 27% of Irish children are overweight or obese; (*Irish Heart Foundation, 2007*)
- notes that excess non-lean body mass, at a young age is associated with both immediate and long-term health risks and will have significant implications for health-care costs; (*Growing up in Ireland, National Longitudinal Study of Children, Overweight and Obesity among 9-year olds* (2011) p.8)
- notes that while the status of Physical Education might be equal in law to other subjects, this is not matched in the reality of practice, (*Hardman, 2007, 9*) and
- proposes that the Government under the stewardship of the Minister for Health acts to develop effective and appropriate responses, cross-Departmental, to implement a continuously assessed physical fitness and health awareness

programme and regular corresponding health checks to lessen the burden on our health service in the future and improve quality of life.”
