- the significant economic, social and environmental impact the removal of these services will have on the communities and areas most impacted and the wider implications throughout the rest of Ireland;

understands:

- the difficult circumstances faced by service providers in the context of Covid-19 and shares the concerns of the many workers and commuters who will be detrimentally impacted by Bus Éireann’s proposed move;

agrees:

- that it is unacceptable that a sustainable funding plan has not been put in place for our public transport network during the ongoing pandemic;

2. “That Seanad Éireann:

acknowledges:

- families, carers and service providers have been stretched to incredible lengths, many to breaking point throughout the course of this pandemic;
- the personal toll and long-term impact of the withdrawal of care and supports for people with disabilities, their families and their carers is deeply worrying;
- due to Covid-19, disability services that rely on voluntary fundraising to meet operating costs have been unable to do so;
- services are suffering from chronic underfunding which has resulted in unmet need exacerbated by Covid-19;
- reopened disability day services are operating at approximately 40 per cent capacity;
- service providers submitted their funding requirements to the Health Service Executive in mid-June; and
- the Government's allocation of €10 million in additional funding to day services and home support services for disability service users is insufficient and will not meet the urgent Covid-19 related costs for service providers, community and home support;

recognises:

- that Ireland's ratification of the United Nations Convention on the Rights of Persons with Disabilities requires progressive implementation; and
- the innovative and committed response of disability and dementia service providers in the delivery of care and support for people with disabilities and their families throughout this pandemic; and

calls on the Government to:

- provide the funding required to fully reopen day and other essential disability services to implement all Covid-19 related protocols; and
- provide the additional funding, resources and capital investment required to guarantee sustainable capacity within disability and dementia services.”

4. “That Seanad Éireann:

recognises that:

- post offices serve a vital social and economic role in their communities;
- there is a very specific commitment in the Programme for Government to protect the postal network;
- rural and small urban post offices, which are mostly run by independent postmasters, have had their income and footfall greatly reduced;
- many small post offices are now operating on the equivalent of the national minimum wage;
- Grant Thornton has predicted that 885 post offices will cease to exist by July 2021; and
- if footfall and incomes are not improved then the post office network will be decimated; and

calls on the Government to:

- act on its commitment as outlined in the Programme for Government;
- implement an action plan for the post office network within three months;
- implement a new community banking service operated by An Post to be made available in all post offices throughout the country; this post community bank could be based on either the New Zealand Kiwibank model or the German Sparkassen model, both of which have been found to be valid models;
- consider a once-off capital investment fund for the further modernisation of the post office network to enable the widespread provision of banking services in rural and disadvantaged urban areas, most of which have been completely abandoned by the current banking model;
- ensure that the provision of all over-the-counter services relating to Government Departments must be tendered for on the basis of both social and economic grounds, to include rural Ireland in any future growth;
- ensure that all business previously identified by Grant Thornton, the former Oireachtas Joint Committee on Transport and Communications and the Post Office Network Business Development Group must be implemented;
- establish a working group to identify the potential for local post offices to act as hubs to facilitate other services such as health, transport, agriculture, etc., and to act as a one-stop-shop for Government services as committed to in the Programme for Government;
- strongly consider committing funds, while the above measures are being implemented,

to ensure no more downward pay reviews to post offices which will make them uneconomical and have the effect of closure by a thousand cuts;

- ensure that a five-year holding plan will be put in place while these changes are being implemented or there will be no network left to salvage; and
  - recommends that An Post be invited before the Joint Committee on Transport and Communications Networks to outline their plan for the future of the post office network.”
