1. “That Seanad Éireann:

- notes that the student profile of those studying medicine and law in our universities continues to be dominated by those from more affluent socio-economic backgrounds;
- further notes that there are perceived and actual barriers to the medical and legal professions for those from less affluent socio-economic backgrounds;
- calls for an examination of the barriers to entry into the medical and legal professions to be undertaken by the Department for Further and Higher Education, Research, Innovation and Science, in conjunction with the Higher Education Authority and the relevant professional bodies, and that a report outlining suggested methods to ensure greater opportunities for access be presented before Seanad Éireann within six months.”

[9th February, 2021]

2. “That Seanad Éireann:

notes with concern:

- the ongoing global impact of the Covid-19 pandemic;
- the lack of equitable access to vaccines for many countries in the global south, particularly African countries;
- that it is an injustice that only 5.88% of people living in Africa are fully vaccinated and only 27% of healthcare workers across Africa are fully vaccinated;
- that public health experts have consistently warned that failure to reach sufficiently high vaccination levels in every part of the planet would contribute to the emergence of new variants of concern such as the recently announced Omicron variant;
- that the European Commission has consistently blocked the introduction of a Trade-Related Aspects of Intellectual Property Rights (TRIPS) waiver on Covid-19 vaccines and technology at the World Trade Organisation’s (WTO) TRIPS Council;

further notes:

- that very large amounts of public money contributed to the discovery and development of Covid-19 vaccines;
- that the introduction of a TRIPS waiver could contribute to a significant increase in global manufacture of Covid-19 vaccines, including wider manufacture in the global south, and this would expedite global access to vaccination;
- that a TRIPS waiver was first proposed by South Africa and India in December, 2020, and has been supported by over 100 countries worldwide;
- the support of the United States of America for a TRIPS waiver, recently reaffirmed by President Biden;
- the resolution of the European Parliament in support of a TRIPS waiver in June 2021;
- the report published by the Joint Oireachtas Committee on Foreign Affairs and Defence in March 2021, which identified a TRIPS waiver as a key public health mechanism and noted its importance in response to the HIV-AIDS crisis;
- the strong calls from the World Health Organisation (WHO) and UNAIDS for a TRIPS waiver and global vaccine equity;
- the calls from international civil society organisations, including Médecins Sans Frontières, Oxfam, Amnesty International, Trócaire and Christian Aid, for a TRIPS waiver;
- that a formal appeal to the United Nations has been filed by nursing unions from 28 countries, representing 2.5 million nurses, stating that the failure of the European Union,

United Kingdom and other countries to support a TRIPS waiver has cost huge numbers of lives in the global south;

- that less than one-third of vaccine doses pledged through the COVAX Initiative have been delivered;

recognises that:

- a global pandemic requires a global response;
- the longer we take to achieve global vaccination thresholds, the more lives will be lost and the greater the cumulative damage to societies and economies worldwide;
- a TRIPS waiver is an important part of an effective global public health response;
- the prolonged delays in the agreement of a TRIPS waiver at the WTO TRIPS Council has worsened the situation in respect of Covid-19 for global south countries;
- sustained blocking of a TRIPS waiver at the WTO TRIPS Council is not responsible or sustainable from a moral, diplomatic or public health perspective;
- none of us are safe from Covid-19 until everyone is safe;

calls on the Government to:

- immediately express public support for a TRIPS waiver on Covid-19 vaccines and technology, as a crucial step in supporting the scaling up of vaccine production in low and middle-income countries;
 - urgently write to the President of the European Commission and the European Commissioner for Trade to express Ireland's support for a TRIPS waiver and to call on the European Commission to end its blockage of the proposal at the next meeting of the WTO;
 - strongly, publicly and consistently call on the European Commission, fellow members of the European Union and other countries across the world to support a TRIPS waiver on Covid-19 vaccines;
 - sign up to the WHO Covid-19 Technology Access Pool (C-TAP) and support its efforts to facilitate the open sharing of technology and know-how in relation to vaccine production and the treatment of persons infected with Covid-19.”
- *Senators Alice-Mary Higgins, Paul Gavan, Lynn Ruane, Frances Black, Niall Ó Donnghaile, Lynn Boylan, Fintan Warfield, Rebecca Moynihan, Marie Sherlock, Annie Hoey, Mark Wall, Victor Boyhan.*

Leasú:

Amendment:

1. To delete all words after “That Seanad Éireann:” and substitute the following:

“acknowledges that:

- universal and equitable access to vaccines is crucial in the global fight against Covid-19 and Governments in the developed world must do more to ensure this;
- international trade is a competence of the EU under the Treaties and in exercising that competence, the European Commission engages fully with the Member States, including Ireland, through a variety of Committees and Working Parties/Groups, including on Intellectual Property;
- Ireland will engage with the European Commission and other Member States on the EU position for the WTO discussions on how the flexibilities within the TRIPS Agreement can contribute towards increasing the manufacturing capacity and the equitable access to vaccines around the world;
- the EU continues to be committed to an open and comprehensive dialogue with all WTO members to explore how the multilateral rules-based trading system can best support universal and equitable access to Covid-19 vaccines and treatments;
- the EU made an alternative proposal which is targeted and pragmatic and aims at ensuring that Governments can resort to compulsory licences, including to export to countries with no or limited manufacturing capacities, in the most effective manner adapted to the circumstances of a pandemic;
- since the inception of the TRIPS Agreement, Least Developed Countries (LDCs) have benefitted from an extended transition period to apply provisions of the TRIPS Agreement, in recognition of their special requirements, their economic, financial and administrative constraints, and their need for flexibility in order to create a viable technological base;
- the EU considers that the COVAX Facility, the international initiative to ensure global access to Covid vaccines, is the mechanism that is best placed to ensure that high-income countries finance the vaccines and support developing countries to secure their share of global supply;
- the EU with its Member States have been the leading donor to the COVAX Facility with €3.2 billion committed for equitable distribution of vaccines; the EU has been the leading exporter of vaccines, out of a total of 2 billion doses produced since December 2020, the EU has exported over 1.4 billion doses to 150 countries; the EU's target is to donate 700 million doses by mid-2022; and the EU is also investing €1bn to ramp up mRNA production capacity in Africa;
- Ireland will donate over 1.3 million surplus vaccines this year to low-income countries as part of the COVAX programme; the first 500,000 Irish doses donated through COVAX reached Nigeria on 29th November; in addition, Ireland has delivered on its commitment to donate 335,000 Covid-19 doses to Uganda, with further significant donations to follow soon; and Ireland has contributed €7 million to COVAX to facilitate the procurement of vaccines by low and middle income countries, this translates roughly to a further 1.2 million doses of vaccine donated by Ireland to low-and-middle income countries;
- the risks to companies of investing in vaccine development and manufacturing were underwritten and mitigated by large public investments and advance purchasing agreements; and notwithstanding these interventions, consideration of the matter must balance the need to encourage and support industry to carry out research, innovate and

develop new medicines and vaccines with the importance of ensuring fair, equitable access to medicines and medicinal products.”
