3. “That Seanad Éireann:

acknowledges:

- the impact of the free School Transport Scheme to mitigate increased costs of living for families in Ireland;
- access for 44,000 new eligible students at primary and post-primary level to school transport;
- an increase of 16% in new school transport tickets;
- increased Government investment in school transport;

notes the:

- volume of applications for the School Transport Scheme;
- challenge with capacity of bus services and availability of drivers;
- impact on parents who have previously paid for school concessionary tickets;
- impact in rural areas where parents have no other public transport options;
- delay in notification to families and parents who applied earlier in the year;
- discrimination by Bus Éireann, due to their policy of excluding those who are over 70 years of age, from driving school buses;

and calls on the Government to:

 - increase the safety of school drops and pick-ups on busy roads with additional bus services;
 - support families living in regional areas by providing public school transport options;
 - increase the driver age for school transport to 75, in line with recent legislation in the Department of Transport where drivers under 75 years of age no longer have to supply a medical report confirming their fitness to drive, unless they have an identified or specified illness or are required to do so by law;
 - increase access to school transport options for parents and students at post-primary level, which is particularly relevant in rural areas, where there may be second-level school options in two neighbouring towns.”

Amendment:

1. After the last paragraph, to insert the following paragraphs:

“recognises that:

- each year the School Transport Scheme is over-subscribed, with the State turning thousands of children away from this public transport option annually;
- the Minister for Education failed to increase capacity this year alongside the announcement of the elimination of fares, resulting in an unprecedented number of applications and thousands of children not getting a seat on their local school bus;

notes:

- the failure of the Government to harness this demand results in thousands of extra private car journeys to and from school each day which is totally at odds with our climate ambitions;
- that by expanding the School Transport Scheme, we can cut transport emissions, reduce dangerous traffic congestion outside schools, while also providing parents and guardians with a convenient method of transport for their children;

and calls for:

- an additional 10,000 extra places to be funded on the School Transport Scheme in 2023;

- capital funding to be provided for the purchase of new school buses, noting the age and quality of the current fleet of school transport buses.”
