- calls for an examination of the barriers to entry into the medical and legal professions to be undertaken by the Department for Further and Higher Education, Research, Innovation and Science, in conjunction with the Higher Education Authority and the relevant professional bodies, and that a report outlining suggested methods to ensure greater opportunities for access be presented before Seanad Éireann within six months.”

2. “That Seanad Éireann:

notes:

- that the Intergovernmental Panel on Climate Change Working Group III contribution to the Sixth Assessment Report (IPCC AR6 WG III) identified investment protection under the Energy Charter Treaty (ECT) through Investor-State Dispute Settlement (ISDS) mechanisms, which are ‘designed to protect the interests of investors in energy projects from national policies that could lead their assets to be stranded,’ as something which aids ‘fossil fuel companies to block national legislation aimed at phasing out the use of their assets’;
- that the ECT has been used at least 150 times by investors, claiming in total €110bn in compensation for changes in national energy laws that would reduce their profits; and

calls on the Government:

- to withdraw from the Energy Charter Treaty.”
- *Senators Lynn Boylan, Paul Gavan, Niall Ó Donnghaile, Fintan Warfield.*

[28th June, 2022]

-
3. “That Seanad Éireann:

notes that:

- in the early years of Irish statehood two institutions, ACC and ICC, were set up in recognition of the importance of financial services to facilitate the growth of our agricultural and industrial sectors;
- ACC and ICC were allowed to become part of larger private commercial banks and now have ceased to exist as all foreign owned retail banks have left or are leaving the Irish market;
- Ulster Bank has one million current accounts including 70,000 commercial accounts and 301,000 deposit accounts, KBC has over 300,000 current accounts. All these accounts will have to be closed within the next 12 months, with most requiring new accounts to be opened elsewhere;
- Irish mortgage rates are the second highest in the Eurozone after Greece and double the currency bloc’s average rate;

- banks regularly blame the increased capital charge for the higher mortgage rate, but a Goodbody Stockbrokers' analysis in July 2021 found the real difference is in the banks' operating costs compared to their EU counterparts;
- the report on Local Public Banking in Ireland and the Indecon Report both concluded there was no economic case for a public bank in Ireland but were based on a much different banking landscape than currently exists;

recognises that:

- the choices of individuals and companies are now severely limited regarding the provision of basic financial services especially with local access;
- both personal and business consumers are paying over the odds on their mortgages and loans with only the prospect of increased interest rates going forward;
- reliance of our remaining financial institutions on online solutions actively discriminates against certain cohorts of the population;
- credit unions have limited scope to provide financial services to business customers e.g. personal current accounts only, and lack the expertise to fully serve this important sector; credit unions are not banks and do not want to be banks;
- the lack of availability of, and appetite for, credit by our SMEs, is constraining the growth of our economy as these are the backbone of the economy and provide the vast majority of employment;

acknowledges that:

- the Banking Review has commenced and is due to report by end of November 2022;
- separately, the review of the credit union movement is due to be completed imminently, members of the Government openly talk of the credit unions filling the gap left by Ulster Bank and KBC thus pre-empting the conclusions of this review along with the Banking Review;

and calls on the Government to:

- take immediate action, using the expertise available to it, to design and implement a comprehensive public bank system that makes full use of the remaining local financial services infrastructure to deliver a banking service that serves our local communities and businesses.”

– *Senators Marie Sherlock, Annie Hoey, Rebecca Moynihan, Mark Wall.*
